

Call and Hear the New Edison Diamond Disc Phonograph

You cannot realize what a musical triumph Mr. Edison has achieved until you have actually heard the new Edison, with its wonderful sound reproduction. It has made of the gramophone a real musical instrument. A tone that is true, lustrous, beautiful, and what music lovers have been waiting for. It speaks a new word to music. Call and hear the new Edison.

New Records--Just Out

We have just received the latest weekly list of New Edison records. A new list of records every week. This week's list contains some records to watch.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Arrests Expected in Santa Clara Case.

Marshfield—P. L. Neil, postoffice inspector, left for Portland on the Kilburn, after having made an investigation of rifle and parcel post sacks on the wrecked Santa Clara. The inspector examined a large number of witnesses, and while he would not make a statement, it is believed he secured sufficient evidence to make a case against some of those alleged to have tampered with the mail pouches on the wrecked vessel. The evidence will be taken before the federal grand jury at Portland. It is fully expected that a number of arrests will be made.

Drained Lands for Lease.

Klamath Falls—According to J. G. Camp, manager of the reclamation service in this city, the government is now advertising to lease for a period of three years the 3994 acres of land formerly covered by the waters of Tule lake, but which were uncovered the past summer by the drainage of the lake. It is hoped that eventually 25,000 acres of valuable land will become available. Thus far 3004 acres have been reclaimed and the government now desires to lease this in tracts of not to exceed 80 acres each, to be cultivated to crop each year or put into tame grass meadow.

\$1,700,000 for Railway Betterment.

Tacoma.—Expenditure of \$1,700,000 by the Union Pacific system and the Oregon-Washington Railroad & Navigation company for ties and other equipment and in the reconstruction of the main line of the O. & W. between Blalock and Coyote, Ore., was announced here by J. P. O'Brien, vice president. For the first time the roads have placed orders for Douglas ties in the northwest. This expenditure amounts to \$400,000 for 50,000,000 feet, the biggest part of the orders being placed with Tacoma and Grays Harbor mills.

NEW IRRIGATION PROJECT

Grant's Pass Man's Application Approved by Engineering Department.

Salem.—The state engineering department has approved applications made in the name of Wesley B. Sherman of Grant's Pass, for the construction of a one million dollar irrigation project on Graves creek near Grant's Pass. It is proposed to irrigate twenty thousand acres and develop three thousand horsepower and in addition to use water for both mining and domestic purposes.

The project involves the construction of a large reservoir on Graves creek with thirty thousand acre feet capacity, the dam to be 106 feet high and the reservoir covering an area of 658 acres. An auxiliary reservoir will be constructed on Jump Off Joe creek with a capacity of seventy thousand acre feet, necessitating a dam 183 feet high and reservoir covering 550 acres. A canal will be constructed between the reservoirs.

Hood River Pear Returns Big.

Hood River.—With the exception of a negligible quantity of Winter Nellis, the applegrowers' association has closed its pools on the year's pear crop. Shipping a total of 48 cars of all varieties, the association handled about 75 per cent of the pears of the valley. The pear crop of the valley has been a surprise, not only in yield but in net returns, the average net returns shown for all varieties by the association being \$1.35 a box.

Irrigation of Lapine Basin is Plan.

Lapine.—The Pringle Falls Water & Power Co., of Lapine, with head offices in Portland, has just been sold to a syndicate of eastern capitalists headed by Tomes Brothers of Nebraska. The consideration is said to have been \$300,000. The plans of the new company as announced are to supply power for the irrigation of the entire Lapine basin and Eden coulee, Silver lake and Fort Rock valleys.

Snow Comes Early.

Baker.—The earliest snow for many years is prevalent throughout Baker county and eastern Oregon. In fact there is more snow on the ground at this time than fell during all last winter. There is now anywhere from four to six inches of snow in the Baker valley and farther back in the foothills and mountains, it varies in depth from one to four feet.

Baker School Bonds are Carried.

Baker.—By the largest majority ever recorded in a school election in this city a \$125,000 bond issue to provide funds for the construction of a new high school building was authorized, 360 votes being cast for and 170 against the issue.
