THE "PRUDENT MAN" IS NEVER OUT OF JOB AND WITHOUT MONEY IN THE BANK

Grets won't bring back the money you have extravagant. One sure friend to a man in trouble is money bank. The man who banks his money is the man who gains confidence of his employer and holds his job. Money in the bank also means CREDIT and CONFIDENCE. No man can afford not to have the confidence of his men.

Make OUR bank YOUR bank. We pay 4 per cent interest on Savings Deposits. **Tillamook County Bank**

MEASURE FOR LAND LOANS IS COMPLETED

Plan Provides for Regional Banks, Financed by Subscriptions from Public.

Washington.—A land loan bill, which is expected to have the approval of the administration, was completed by a sub-committee of the joint congressional committee on rural credits. Senator Hollis was authorized to present the measure to the full committee on January 3. Already it has been informally approved by practically the entire membership of the committee.

The bill would provide a comprehensive farm credits system under the control and supervision of a federal land bank board of five members, to be appointed by the president, with the approval of the senate. The country would be divided into 13 districts, each with a regional land bank having a capital stock of \$500,000, to be issued in \$10 shares for purchase by the public. Any such stock not taken within 90 days by private capital or by a local loan organization contemplated by the bill would be subscribed by the federal government.

Business would be transacted directly between the regional banks and the local bodies which farmers would be authorized to organize in the form of co-operative loan associations or joint stock banks.

Object Lesson in Warfare Planned.
Congress will have an object lesson in preparedness for modern warfare, if Senator Chamberlain, of Oregon, chairman of the senate committee on military affairs, succeeds in carrying out a plan he has conceived to illustrate graphically the problem of national defense.

When congress reassembles the senator will propose that a division of regular troops or of regular and national guard troops be assembled at the nearest suitable point to Washington. He would have these troops which mobilized dig trenches and otherwise fortify a defensive position.

Then the division would attack the fortified position, the artillery using real shrapnel and high explosive shells and the infantry ball cartridges and hand grenades.

Although the position would not be defended by troops and no men would be under fire at any time, the senator is of the opinion that the attack would furnish a more valuable object lesson than the ordinary maneuvers or sham battle.

Austria May Reject American Demand.
Austria, according to unofficial information received in authoritative quarters here, will not meet the demands of the United States in her forthcoming reply to the Ancona note and Teutonic diplomatic circles are represented as being prepared for a severance of diplomatic relations.

Although the state department so far has received from Ambassador Penfield at Vienna no forecast of the reply, it was understood that unless some excellent reason for continuing diplomatic correspondence on the subject was presented, no course seems to remain but to break off relations.

The United States does not contemplate entering into extended diplomatic exchanges over the Ancona case. Unless some good reason presents itself for further negotiations, the United States, it is said, will consider as final the reply to its second note.

American Union Lansing's Plan.
A Pan-Americanism of "One for all; all for one" was outlined by Secretary Lansing at the opening of the second Pan-American scientific congress.

"Pan-Americanism," said the secretary, "is an expression of the idea of internationalism. America has become the guardian of that idea which will in the end rule the world. Since the European war began other factors have strengthened this natural bond and given impulse to the movement. Never before have our people so fully realized the significance of the words of peace and fraternity."

At a luncheon given in his address Secretary Lansing said: "If the sovereignty of the republic is measured from the power of the United States, the American republic is the most powerful and influential in the world. The United States is the only nation which has the power to prevent invasion and aggression."

WASHINGTON MAN IS TAKEN IN PORTLAND

Portland, Or.—Denying all connection with the looting of the Washington Industrial Insurance fund, but admitting that he had been hiding in Portland under the alias of Jack Edwards since December 8, Frank W. Stone, who is wanted in Olympia, Wn. for alleged irregularities involving about \$20,000 of state funds, was arrested in this city by Detectives Sweeney and Pat Moloney.

He is accused by Washington authorities of being the ringleader of a clique that has been looting the state industrial insurance fund for more than a year by procuring the signatures of fictitious claimants. Vouchers for big hospital bills were signed by men slightly injured, at the instigation of Stone, it is alleged.

Other members of the supposed ring are John W. Gillies, claim adjuster for the state industrial accident commission, and Eugene K. Kearns, a saloonman, both of whom are under arrest in Olympia.

EIGHT INDICTED FOR PLOTTING

Member of Congress and Ex-Attorney General of Ohio Involved.
New York.—Eight men, including a representative in congress and an ex-attorney general of Ohio, were indicted by a federal grand jury on a charge of conspiring to foment strikes in American munitions factories as part of a campaign financed by the German government to check the exportation of munitions.

The men indicted were Representative Buchanan, of Illinois; ex-Representative Fowler, of Illinois; Frank S. Monnett, ex-attorney general of Ohio; H. B. Martin, Herman Schulze, Franz von Rintelen, David Lamar and Jacob C. Taylor.

All the men, except von Rintelen and Lamar, are officers or ex-officers of Labor's National Peace Council. The government charged that this organization was financed by Franz von Rintelen, a German agent, to instigate strikes in munition plants while ostensibly working in the interests of peace.

Oregon Irrigation Men Meet

Portland, Or.—Co-operation between all interests affected in irrigation enterprises and government and state guarantee of interest on bond issues under the irrigation districts were the features on which centered the deliberations of the fifth annual Oregon Irrigation congress, which opened its session here Tuesday morning.

Seven Chinese Provinces in Revolt

San Francisco.—A cablegram received by Tong King Chong, president of the Chinese Republic association, from revolutionary leaders in Shanghai, said that a total of seven provinces have declared themselves against the new Chinese monarchy.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Klamath Bounty on Coyotes Raised.
Klamath Falls.—County authorities raised the county bounty on dead coyotes to \$2.75 in the campaign by Oregon, California, Idaho and Nevada authorities to stamp out rabies. Coyotes in the region of Fort Klamath bring \$4.75, residents of Fort Klamath having pledged \$2 additional for each animal killed. The situation in Klamath county was described as not serious but fear is felt that rabid coyotes may find refuge in Klamath county from the vigorous campaign being waged against them in Modoc and in Lake counties, in California.

Moro Hunters Get 600 Rabbits

Moro.—The annual rabbit hunt of the Moro Rod and Gun club was conducted with Dr. C. L. Foley as captain of 58 members of the winning side, and L. Barnum, with 67 members, captain of the other side, which will give the winners a stag smoker and oyster supper December 30. The 600 rabbits were shipped to the Portland Muta. One lynx, one coyote, one bald eagle, two badgers, 20 porcupines, some chonxious birds and eight geese were also taken.

Must Build New Reservoir

Salem.—The state public service commission has made an order requiring the Coos Bay Water company to construct an additional reservoir, with a capacity of 250,000 gallons, at North Bend on or before April 1, 1916. It is further required that all of the high pressure storage capacity at North Bend be made available for the protection of Marshfield against fire by the installation of the necessary equipment.

SUGAR PLANT TO BE BUILT

Contract for \$500,000 Factory to Be Let at Once.
Grants Pass.—The Rogue river valley received her one best Christmas gift when announcement was made from Salt Lake that the Oregon-Utah Sugar Beet company had definitely decided to erect a beet sugar factory in the Rogue river valley.

Bids for erection of a factory will be called for immediately after the holidays and construction of a \$500,000 plant will be started at once. Seed for 5000 acres of beets, to be planted in 1916, has been arranged for and contracts made with farmers for seeding this area.

While the exact location of the factory has not been made public, it is significant that surveyors have been busy just across the river from Grants Pass, where the California-Oregon Coast railway enters the town and that the Grants Pass district has signed up a much larger acreage than any other district.

Tile your farm. It pays.

QUICK ACTION IS WANTED

Wilson Wants Congress to Concentrate on Defense Program.

Hot Springs, Va.—Congress will be urged by President Wilson to concentrate its attention on the administration's national defense program immediately after the Christmas holidays. It was learned here that while the president has no desire to see the preparedness plans rushed through without full consideration and debate, he strongly desires to have the army and navy bills disposed of as promptly as possible.

He not only believes it is essential to put the war and navy departments in a position to begin work on their new programs without delay, but wants the congressional calendars cleared for general legislation later in the winter.

The president celebrated his 53rd birthday Tuesday.

MAY GET NAVAL ACADEMY

Second Annapolis Should Be Located on Pacific, Says Daniels.

Washington.—Secretary Daniels said that when the increased building program for the navy ultimately made necessary a second naval academy, the logical place for the new institution would be on the Pacific coast.

The secretary has recommended to congress an increase of the undergraduate body at Annapolis to its full capacity—1200 midshipmen—and that number will care for the first body of junior officers for the fleet increase. Further increases, however, will require additional facilities and the secretary said he thought better results would be accomplished in an additional academy.

Pittsburg Millionaire Pays Lesson

Pittsburg.—Joy prevailed in the hearts of Pittsburg's school children as a result of the announcement by H. C. Frick, millionaire coal magnate, that he would pay in full as a Christmas gift all the accounts of the 41,000 children depositors in the Pittsburg Bank for Savings which was closed here last week.

Cabinet Decides on Conscription

London.—It is stated on excellent authority that the cabinet has virtually decided upon a modified form of conscription bill to be introduced in the house of commons next week.

Wealthy Lumberman Dead

Minneapolis.—Thomas L. Shevlin of Minneapolis, millionaire lumber man and Yale football coach, died at his home here of pneumonia.

Cattle Losses Are Expected

Baker.—Early winter has worked a hardship on cattle, and losses before spring are expected. Because of the long, dry summer and fall the range did not contain the usual amount of nourishment and many cattle started to feed this winter in poor condition.

Sutherlin Has Big Fire

Sutherlin.—Fire that broke out shortly before midnight completely wiped out the \$30,000 J. F. Luse residence, overlooking Sutherlin and considered one of the finest and most elegant country houses in southern Oregon.

Land For Sale

40, 80, 120 or 160 acres of the Dr. Brooks' ranch, 3 miles south and 1/2 mile west of Tillamook on old Netarts road. Three of the 40 acre tracts have one half or over good bottom land which the tide, backing up through a creek from the Tillamook River 1/2 mile east, overflows. There is a barn 40x80 on one 40 acre tract which is 3-5 bottom. There is a very good house on one 40 acre which is 1/2 bottom, and a school house is also located on this 40. One 40 acre which has no buildings is 1/2 bottom land. The remainder is bench pasture lands (some plowed) but mostly set to red clover. One bench timber land, some grazing.

Price Will Be Right. Part Trade. Will Give Terms.

Will sell 40, 80, 120, 160 acres to suit.

Write Owner, **C. B. COOPER,**
McMinnville, Ore.
