Kill Rats SCIENTIFICALLY With Azoa Rat Virus

Azoa is a virus of a disease peculiar to rats and mice and in a majority of cases, inoculation will produce this disease and consequently destroy the pests. This new scientific experiment has no effect on poultry, cats, dogs, horses, sheep, cattle or rabbits so can be used with safety in the home and on the farm. Raising rats is a losing business, so why not exterminate them?

CARD OF THANKS We wish to sincerely thank those who so kindly assisted us at the death and burial of our beloved one Jan. Spencer, especially Dr. Shearer and the nurses, Rev. McKee and the members of the Presbyterian Church choir. MRS. JAS. SPENCER AND FAMILY

RESOLUTION OF CONDOLENCE WHEREAS the Supreme Ruler of the Universe, in His wisdom and mercy, has received from this world of ours and sorrow to that happy home beyond the father of our beloved Brother, Emil Heusser, and that in his departure we are again reminded that our lives are fleeting and transitory and are again called to pause a moment in the busy whirl of life to bow our heads in humble submission to the will of Him who rules the destinies of all; and

WHEREAS in the death of Reverend Heusser, the father of Brother Emil Heusser, we recognize that our Brother has lost a father who has always been loyal to his family and friends and his fidelity to the responsibilities of life has gained for him the sincere admiration of all. THEREFORE, BE IT RESOLVED

that we, as members of Tillamook Lodge No. 94 of the Independent Order of Odd Fellows, extend to our bereaved Brother, his family, relatives and immediate friends, our heartfelt sympathy in this, their hour of sorrow, and assure them of our desire to help them bear their burden of sorrow at this time.

RESOLVED FURTHER, that a copy of this resolution be delivered to our bereaved Brother and one to the newspapers of Tillamook City for publication, and one copy spread upon the minutes of this Lodge. Respectfully submitted in F. L. #7, J. S. LAMAR
