EDITORIAL COMMENT

Spring is coming.

Buy it in your home town.

Rejoice that you have escaped the grippe.

Because a local industry has an investment here, and because it is conducted by your neighbor—it is worth patronizing and boosting.

The salaries of officers and employees of the state or any political subdivision thereof, such as a city, town, county, or hamlet, are exempt from taxation under the federal income tax law. This law expressly provides that this exemption does not extend to salaries paid federal officers or employees, including the president of the United States, the judges of the supreme and inferior courts, and all officers and employees or appointed, of the United States, Alaska, Hawaii, or any political subdivision thereof, or the District of Columbia.

ROADS

"The city is its streets; the country is its roads; the nation its highways of rail and water. Civilization follows not the forest trail. That is always the savage's route. Everything depends upon inter-communication of man with man. And roads, roads and highways. Streets are degraded when buyer and seller cannot meet. Education languishes when mind brackets the road to the little red school house. Literature must have circulation or be impotent. Art cannot effluvia or genius, or design the multitude it cannot reach. Every day, every hour, every minute hears the can of the highway. Great as was the greatest of the Caesars, greater was he as a road builder, the roads today remain as his enduring monument.—Ex.

POLITICS AND INSURANCE

As a result of the short-sighted policy of the board in not carrying insurance on San Francisco school property, the taxpayers of this city are now faced with the necessity of putting up somewhere in the neighborhood of half a million dollars to replace the precious high school building recently destroyed by fire.

Not only are the taxpayers penalized but even more important is the fact that several hundred high school students will suffer a serious interruption of their school work.

This is a perfect illustration in a small way of the danger of any small unit or section of the country carrying its own insurance.

It illustrates the folly of socialistic plans for state insurance in order to give low rate, chiefly for political effect.

PLAYING THE HYPOCRITE

We read in news reports how five big New York dailies are using German news print paper because they buy it at \$50 a ton against a domestic price of about \$30 at present. German paper mill workers are getting weekly wage with a gold equivalent of \$5.84 which is but little more than the average daily wage of the American paper mill worker.

American paper manufacturers state that under present cost of production the German price is \$15 a ton below manufacturing expenses here and many mills cannot break even at \$80 a ton or 4-cent paper.

We cannot have the high wages, the shortest hours, and at the same time, the lowest commodity prices in this nation. It is nothing to brag about for an American publisher, unless he, at the same time, has the nerve to advocate that American mills manufacture on the same cost basis as foreign ones.

CHARACTER DEVELOPS CHARACTER

Some two months before congress approved the bill making an appropriation of ten million dollars for the relief of starving Russians, Elihu Root, in public address in New York, said:

"All the terrible lessons of the last decade show most clearly that the most insuperable obstacle to the peace and happiness and progress and growth of the people is their incapacity to receive the blessings that are ready for them—if they will but take them. The world is full of hatred and strife and murder today because of the incapacity of millions of people, in organized states, to receive the truth that is being spread throughout all civilization and which is to be theirs in centuries to come—but they are not ready for it. All the sermons ever preached, all the orations ever delivered, all the books ever printed, working through the brain of man cannot fit him for the acceptance of the highest tasks that man is capable of. The development of character must come through exercise by them of the virtues that make human character—mercy, compassion, kindly consideration, brotherly affection, sympathy with fellow-man, unselfish willingness to sacrifice for others."

Character must be judged by the exercise of the virtues that make up character. It must be developed by character. As a nation we shall be judged, not by holding aloft from the world in a "holier-than-thou" attitude, but by mixing generously with the world and helping to solve its problems, which are also our problems. Giving ten millions of dollars for the relief of starving Russia offers an opportunity to develop some national character and encourage others to follow our example.

L. C. Daniels' Two-Year-Old Heifer Wins Championship in Year's Test

Thursday a number of members of the Tillamook Jersey Club and men interested in Jersey breeding met at the farm home of Mr. and Mrs. Lester C. Daniels to celebrate an event of which not only are the Daniels partly proud, but one that all Tillamook county rejoices in—THE CAPTURE OF ANOTHER WORLD RECORD BY A TILLAMOOK COW.

St. Mawes Pretty Lady, a Jersey heifer, owned by Mr. Daniels, made a record in cases as announced in The Herald last week, when she produced 21.25 pounds of fat and 12.50 pounds of milk. She began her official test as a senior two-year-old.

This is 75 pounds of fat more than the previous holder of the world's record had made, according to Horace M. Alden, field officer of the Oregon Farmer, who attended the celebration. St. Mawes Pretty Lady brings the first world record made by a Jersey in Tillamook county but she is not alone in the state for of the eight world records as awarded by the Jersey Club Oregon has six.

St. Mawes Pretty Lady is by Poppy's Golden St. Mawes owned by Tillamook breeders, who died last

year. She carries the greatest pure blood lines of the Jersey breed and her record was anticipated from birth. She is a full sister to St. Mawes Golden Poppy, sire of Poppy's Dorian, world record holder, three years old with 194 pounds of fat in a year. She is also a full sister to Poppy's St. Mawes the first gold medal cow of a gold medal sire and sire of 14 registered daughters. Poppy's St. Mawes, the dam of these three heifers is considered the greatest Jersey cow through the product of her own. She has a record of 245 pounds of fat.

She is owned in Oregon by Ed Cary of Carlton who bred all three heifers and still owns the others.

Mr. Daniels bought the new-born cow in the sale of cattle held from Pullman, Wash., which was held in Tillamook, when she was just three years old. He also purchased her dam and grand dam and still owns them. He has a herd sire of Ed Cary breeding who won the championship at the county fair last fall as also a number of very promising heifers, one of them a daughter of Lady. She will freshen soon and is expected to add further laurels to the Daniels herd.

Lady's dam has just finished a year record of 225 pounds of fat.

Mr. Daniels and wife were strictly business in offering to buy when they began a little over a year ago and they give much of the credit of their success to F. E. Lynn of Portland, a former resident of the Oregon Jersey Club, who urged them to run the cow for a world record and gave much in valuable advice as to feed and care.

Mr. Daniels, at the earnest request of Mr. Lynn has agreed to take Lady out to the Willamette Valley for the annual Oregon Jersey Jubilee which will be held in May or June.

Tillamook is justly proud of Mr. Daniels' success with his herd and congratulates him upon his purchase of these new heifers. It is to be seen by his trophies that the county looks forward to the day when this industry will be made with the cream industry.

The Herald's records show that with another five years Tillamook will be making an average for its pure blood Jerseys for the quality of its cream and eggs will be made as well as its milk. For a while in the past, we have seen the best competition more than

THE HOME TOWN

Make of me what you will—I shall reflect you aptly to a mirror thrown back a mile or so.

If I am pleasing to the eye of the stranger when he asks, if I am such a sight, having seen me, but thinking me as he says as a thing or two, the result is yours.

And when and opportunity can some of my sons and daughters to high seats and places of honor, to my greater glory, to be good before the people, and it is not easy those who are my strength. My strength is those who remain, who are honest and want I can give them, and with what they can offer me. It was generous our former who said: "Better be first in a safe field than second in Rome."

I am more than wood and brick and stone, more even than flesh and blood—I am the concrete seat of an art who can the heart.

I am your town.—American Legion Weekly.

News of Interest From State and County Press

Miss Frances Thomas Litcher, whose tragic death occurred February 19th, at Salem, was a sister of Leslie Litcher, proprietor of Litcher's Auto Top Co. of this place. Of her life the McMinnville News-Reporter pays this beautiful tribute:

Frances Thomas Litcher was born near Dayton, Oregon, on July 21, 1890, and has lived her life in Oregon and most of her days near Dayton, having attended the Dayton public schools. She was a loving thoughtful girl, very fond of children and a great lover of the beautiful especially as it is revealed in flowers. During a portion of her life she was a member and attendant of the Evangelical Sunday school in Dayton.

She is survived by her father and mother, Mr. and Mrs. L. H. Litcher, of Dayton, one sister, Dorothy, of Portland; two brothers, Leslie, of Tillamook, and Victor of Portland. A host of friends will miss her from her accustomed paths and extend a sincere sympathy to those who are most deeply distressed by her loss.

ELECTION SOON

The people of Bay City are going to be called on soon to vote on a proposed bond issue of \$11,000, the proceeds to be used to pay first, outstanding general and special fund warrants, amounting, with interest, to \$12,000, and second, to pay for needed repairs to the city wharf and roadway, which will cost approximately \$2000 more. The bonds will bear 5 per cent annual interest, which is the same rate as the outstanding warrants bear. So there will be no increase of indebtedness, except as to the \$2000 to be used in repairs to the wharf and roadway.—Bay City Examiner.

BAY CITY PROSPERING

In anticipation of work opening up actively in Bay City many former residents who have been residing elsewhere are returning, the result being that nearly all vacant houses are again occupied.—Bay City Examiner.

Unpopular Decision.

The recent decision of the public service commission in the telephone case is proving very unpopular with the public. Their upholding of their decision which granted an increase in the rates of the telephone companies was raw, but their attitude toward the petitioners was worse.

It may prove a cheap lesson to the public as the present commission will no doubt be recalled or abolished. The latter way is the better for when a public body will realize the utter uselessness of commissions.—Wheeler Reporter.

George Gabriel of Madras, Ore., is

vice president of the Central Oregon School Day Association which has decided to pull off the annual dinner on May 12 at Pendleton. Prud'homme is a former Dayton boy, who known in Astoria and Tillamook.

At New Grand Reside, a bank will be opened and a newspaper is named as a possibility, declares the Sheridan Sun. Both will naturally grow up with the town and surrounding country.

RAILROAD IS PREACHING "SAFETY FIRST" GOSPEL

In connection with the Southern Pacific Company's campaign of education with reference to the "Safety First" movement, Ray Grice their local agent has been posting in garages and other prominent places an attractive railroad poster, 14x22 inches high shows an automobile about to cross a railroad track in front of a train. The poster carries a headline reading "Why Gamble with Death to Gain a Moment" and following interesting figures.

EXAMINATION FOR POSTMASTER AT BAY CITY OFFICE

The United States civil service commission, at the request of the postmaster general, announces a competitive examination for postmaster at Bay City.

This examination is held under the President's order of May 10, 1921, and rules.

not under the civil service act and Apply at the post office in Bay City or to the United States civil service commission, Washington, D. C., for application form 2241, and forms 2227 and 2258 containing the date and places of examination and other definite information.

Applications must be properly executed on Form 2211, and filed with the commission at Washington, D. C., in time to arrange for the examination.

Found a Cure for Indigestion

"I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any medicine I have ever tried and I have used many different medicines. I am nearly fifty one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to, now," writes George W. Emery, Rock Mills, Ala. These tablets contain no poison but strengthen the stomach and enable it to digest the food naturally.

Grain Ration for Cows

The most economical grain ration for feed dairy cows along with common grown roughage is composed of corn, 300 pounds, mill run 240 pounds, and cotton seed meal 100 pounds. Corn is relatively low in price now as compared with barley or oats. Cotton seed meal can be replaced by flax seed meal if succulent or laxative feeds are lacking in the ration.

Poison the Field Mice

Many berry growers are reporting trouble with mice that follow mole holes to the base of plants or even make tunnels of their own. Both the

The Thrifty Survive

The thrifty will survive in 1922 not alone because they will have money to use, but because they have more character. The exercise of self-restraint, the development of good judgment, that come with saving and investment, make for stronger character, and greater independence.

A "Nationalized" Savings Account will put you among the thrifty ones, if you have the grit to keep it going.

Eggs at 16 1/2c
Per Dozen---

One and one-half quarts of milk is equal in food value to one dozen eggs and figured on the basis of actual food value, eggs would have to sell at 16 1/2 cents per dozen to be as cheap a food as milk at present prices—but they are selling around 40c per dozen at the present time. Eggs are among the best of foods, but you can, by using milk, get the same nutriment for a great deal less money. Milk is the cheapest and best food you can buy for young or old.
