Do Your Shoes Wear Through?

—If so, you probably have a callous on the sole of your feet, directly above the worn spot on the sole of your shoe.
—This spot wears thru because one or more of the little bones in the ball of your foot are lower than those on either side of it.

—The increased pressure on this spot not only makes the shoe wear out faster but it will cause a painful callous or other forms of foot trouble.
—Ten visit our foot expert and let him give you instant relief by gradually raising the displaced bones to their normal positions with.

Frequently foot troubles are caused by ill-fitting shoes that look to be fitted correctly. Our salesmen are trained shoe fitters.

CAUTION—PARENTS SHOULD BE CAREFUL IN THE FITTING OF THEIR CHILDREN'S SHOES NOW AS IN LATER YEARS 99 PER CENT OF THEIR FOOT AILMENTS IS CAUSED BY IMPROPER SHOE FITTING WHEN YOUNG.

All New Butterick Patterns Contain

THE DELTOR

Which makes every woman her own dressmaker

WHAT IS IT? WHAT WILL IT DO?

It brings a perfect mastery of the dressmaking art. Dress making consists of three things—cutting out—putting together—and fashioning. For years there has been the paper patterns, encouraging home dressmaking. Now for the first time, there has been created a complete system, so simple that the word system seems

PATTERNS & DELTORS BUTTERICK DESIGNS

too cumbersome a word, but so thorough and practical that the word is right. It saves goods, time and energy.

"CUTTING OUT"

shows a woman exactly how to lay each piece of her pattern on her cloth before cutting.

"PUTTING TOGETHER"

The Deltor as created by Butterick, shows a woman exactly how the pieces fit together and how to take each successive step.

"FINISHING"

The Deltor shows a woman the fine points of finishing each separate garment with all that skill without which no garment ever is completely satisfying, no matter how well cut it may be. It likewise, explains at last some of those French secrets of finishing which the average woman has never dared hope of attaining for herself.

—The Deltor is nothing more or less than a picture story of each successive step in cutting out, putting together, with explicitly worded directions. It is enclosed in the envelope of Butterick Patterns, and only in Butterick Patterns.

—The April Delineator and Butterick Patterns are now here.
