AUTOMOBILE NEWS

TWO NEW STUDEBAKERS SOLD HERE PAST WEEK

Williams & Williams, local Studebaker dealers, last week sold two more Studebaker cars in this territory. The first was one of their popular light-six models and was purchased by Louis Echoff. The second was a roadster sold to the Standard Oil Company for use of the Tillamook offices.

The 1922 Studebaker is the ideal car for Tillamook county says Mr. Williams, and he finds it a pleasure in more ways than one to sell any one of the several different models now on display, for he knows that the car gives universal satisfaction and well merits the many favorable comments heard from Studebaker users.

The Road to Happiness

You must keep well if you wish to be happy. When constipated take one or two of Chamberlain's Tablets immediately after supper. They will cause a gentle movement of the bowels.

Preventative Medicine

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.

The energy of a storage battery is generated by the action of the solution on the "paste" of the plates.

By a special formula a superior "paste" of greater energy value and cohesive qualities has been compounded for Columbia plates.

Standard size Columbia Storage Batteries easily generate 10% greater power and likewise give 10% more service. The type for Dodge cars costs only \$38.00, exchange price. The size which fits 80% of all cars costs only \$24.65, exchange price.
