The directors of South Wagner creek district have engaged Miss. Nelly Towne to teach the fall term of school. This is evidence of the excellent satisfaction she gave as teacher in the same district last spring. Miss. Towne is young but intensely in earnest and enters into the business with a zeal and energy that would do credit to a teacher that had been in the pedagogic harness for twenty years.

We make a guess that she never learned the art of putting on "sassiety" airs and that she belongs to no fashionable "400." which is evidence of superior common sense and ability make herself useful in the world.
