PAUL S. ROBINSON,
Editor and Owner.

In St. Helens, they will hire a man to watch their city Vernonia Day, while every other man, beast and auto are in Vernonia.

Mr. Hall will probably decide that politics isn't as successful financially as the banking business.

A new house is being started nearly every day in Vernonia and we are one hundred shy.

Vice President and Mrs. Calvin Coolidge with their two sons, will visit Portland Saturday, Sunday, and Monday. We hope the Coolidge family will excuse us for not going down to see them, but if they want a real thrill they can come to Vernonia.

The Sunday Oregonian of the 6th. had a page devoted to Vernonia with good illustrations of the city, the R. R. work, the timber and scenery. The article predicted a 10,000 population for Vernonia in a couple of years. Better begin today to prepare. People will need houses and water.

Some men saving up for a rainy day meet the boot-legger and spend it all on a wet night.

We can't understand how some fellows can drink coffee for 40 years and yet never learn to keep from spilling it on the tablecloth.

Most every Vernonia citizen has noticed that everything he doesn't have to buy and doesn't need is a good deal cheaper.

In this country any boy can fight his way upward to success unless his father leaves him too much spending money.

Vernonia needs a hundred new residences built immediately for renting purposes.

40 acres, 2 1/2 mi. from Vernonia, on school route; 8-room house, barn; an acre in family orchard. \$1,500; terms if wanted.—Vernonia Realty Co. Also acre tracts and town property.

Rainier is a Columbia County City with a splendid future. Rainier people are boosters. Rainier and all her people are coming to Vernonia to help us celebrate on Sept. 9th. Wont we have fun;

Clatskanie people tell us they have waited long to help Vernonia yell over a new railroad, and they are going to bring a noi-y bunch here Vernonia Day.

Lots of Vernonia men with perfectly good eyesight can't see you when you're broke.

The whole state is invited to Vernonia's Celebration, Sept. 9.

There's a bright side to everything. Vernonia men who chew tobacco don't use per ume.

There is considerable discontent is throughout this country, and whenever discontent is widespread it's generally justified. It is evident the burden of taxation is getting on the nerves of the public. This is apparent to at least one member of congress, who is quoted in the newspapers as saying that "if the folks back home want to better conditions they have it in their own hands. Individually they cannot get congress to quit heaping on taxes, or to take off some already imposed, if they were organized into Taxpayers Leagues and made their demands in mass they they could accomplish much. When the folks back home organize to stop exorbitant and unnecessary government expenditures, such expenditures will be stopped. Here is a thought for the tax payers around Vernonia. They have all to win and nothing to lose by giving this serious consideration. For it may be that the congressman knows far better than we do just what is needed to stop the ever-increasing burden of taxation in this country.

Uncle Sam has been doing some more research work, with the result that some interesting wage figures have just been given out. He shows that, the combined wages, salaries and other incomes of all Americans in 1919 averaged \$627 for every man woman and child. The Vernonia man who desires to find out if he did as well or better than the average man can do so by multiplying \$627 by the number of members in his family, himself included, and then comparing that with the total amount he earned in 1919. For instance, If there are four in your family, husband wife and two children, the husband should have earned \$2,508 in 1919 to have struck the average. If but two in a family, and only one a wage-earner, then he should have earned \$1254. But there is this to remember when you do your figuring—it was a year in which more was earned, and more was spent, than any year in the history of the present generation.

Job had his troubles, but he never had two blowouts within a mile and not a shade tree in sight.

In these days you see a good many more people talking back than you do coming back.

More overalls are being sold now than for several years. If congress dont do something pretty quick times are going to get better.

How can Ford ever become the world's richest man when every time he sells a fliver it adds to the sale of John D.'s gasoline?

Rumor says a 20th. Century store is being planned for Vernonia.
