

MORE OR LESS PERSONAL

Be here the 9th.

Mr and Mrs C. R. Coyle and daughter Betty Jane are visiting a few days in Portland.

Mr Fred Christey and family of Astoria visited this week with Mr and Mrs. C. D. White.

If Mr. Hall keeps on receiving new goods he will have to enlarge his store. The Hall store is a good one.

Judge Harris has just finished one of the really nice homes in Vernonia. It is to be occupied by the Prof. Wilson family. More substantial building is contemplated by Judge Harris, who has some choice building property here.

Mr. Mc Lees, has a crowd of painters finishing inside and outside of Glenwood School near Timber and they will paint a large new barn for Mr. Perry Gabbert before returning to Vernonia. The Hotel Vernonia will then be started for Mr. Malmsten. 75 trucks will be lettered at once for the Oregon American Lumber Co.

The "Home Bakery" is the name of the new bakery established by Mr. and Mrs John Newman in the formerly Tipton building. These people have established new machinery and a new oven. The oven has a 60 loaf capacity at a baking and they can bake every two hours if necessary. Pastry will also be sold.

Some of the best racing ever printed for Vernonia people is found in the Eagle advertisements. Most of them are charged this week. Look over all of them and you will be repaid. Some new ones appearing this week, show growth of the city. Read every adv. and suggest which is the best. Splendid reading.

One of the most unthankful, distasteful jobs we can think of is acting as member of a city council. You are blamed if you do and blamed if you don't. The city council is, as a rule, composed of men who are interested in the town: men who should be progressive and men who act to the best of their ability for the town's welfare. A city council should be backed up, and disgruntled street talk and kicks does little toward town advancement.

Did you ever notice how the "knocker" knocks himself. The chronic kicker is sure to disagree with some to the extent that he will lose customers, friends and money. Too much talk has kept many a man down to the gossip level. Lining up with winners is a sure route to success. There are those who overlook the main important point by being sore at one individual who favors it. "Let's Go Slow" has kept many places in the village clogs. Really big men are known by their actions, not by their talk on knocks. Most towns have their knockers, but Vernonia is fortunate in not having many.

FLOWERS FOR GARDEN WALL

Excellent Effect Can Be Attained by the Addition of Plants That Droop or Trail.

No matter how very small the piece of ground attached to the house may be, it always has possibilities of attractiveness. All that is needed is a bit of thought, of work, and of loving care to make the tiniest garden a joy throughout the summer. In the little garden may be raised gay flowers to decorate the living rooms.

An unusual and beautiful little garden inclosed on three sides by a gray stone wall (four feet high) has acquired an added loveliness by flowers being planted in the crevices of the stones. Plants that droop or trail, and that do not root deeply are best for this kind of planting. Gay, old-fashioned petunias, sweet alyssum, blue ageratum, wild columbine, verbena, forget-me-not, portulaca—with its rose-like flower—and Kenilworth try with its fairy-like pink blossoms will transform the commonplace stone wall into a place of magic and witchery.

Setting Out Plants.

Not all permanent plants can be set out in the spring, but most of them can be. That is the proper time to plant the whole glorious company of flowering shrubs, from golden bells to lilacs and philadelphus. It is the chosen season for setting out the royal family of roses, without which no garden is complete. It is the best time even to move most herbaceous perennials, meaning thereby plants which die down in the fall, but come up in the following spring. Iris, to be sure, ought to be set out in the late summer, shortly after they are through blooming, but a good many of them will stand planting next month with no harder protest than that of blossoming a little late. As for others of the perennial group, especially in inexperienced hands, they are much safer planted in spring than in fall.

Scriptures for Journalists.

"Nomad," writing in the Boston Transcript about the late Edward Everett Hale, the centenary of whose birth was recently celebrated, says of his religion:

"His conception of Christ was as a great human being—of a human being great enough to be God. A Boston newspaper youth, who often reported Hale, tells the Nomad how, when going to Leipzig to study, he wrote and asked him what he should choose for a best course of reading, intending, as I am, to stick to journalism." Dr. Hale replied with suggestions as to which volumes of Bancroft he should read and what others he should miss, etc. But he said at the beginning and end of his letter: "In my opinion what the American journalist needs most is a strict and impartial course of the New Testament."

Set Out a Fringed Palm.

The Winter Haven Chief gives the following good advice: "Don't forget that a palm set out now will be a tree in ten years. You may not live to admire its beauty, but someone else will."—Highlands County Messenger.

Oil Stock.

Mrs. Newriche—I've always wanted my husband to be done in oil.
Mrs. Newport—Poor John was done in oil last month and we've had to sell the car and mortgag the house.

J. B. Esfort has returned to Vernonia from Portland. He says Vernonia is good enough for him.
