## Where Extra Service is Demanded Firestone Cords Predominate

WHEREVER the exactions and tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

• Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.

### SEA NOW CALLS TO WOMEN

Uncle Sam Can Employ Feminine  
Junior Engineers and Deck Officers—Other Positions Open.

Modern girls who desire to enter the proverbial "man's sphere" of business now have their chance. They may enter into a vocation which formerly was decidedly masculine.

Do you think you could powder your nose on the bridge of a schooner in a 60-mile gale? Could you save your suede pumps from the ravages of a deckhand armed with a mop? Do you doubt that you could preserve your dignity and your standing in a boat that was trying to turn itself upside down?

Have you an idea you could stop the brawls of rough sailors, shin up a mast, throw a half-hitch with a slight movement of the wrist and do all the other things which go to make life on the high seas a joy?

If you can answer yes to all those questions, go to the secretary of the United States civil service commission, in the federal building in Los Angeles, and enter in the competitive examinations which soon are to be offered, says the Express of that city. Just put your John Henry on the dotted line, opposite "junior engineer and deck officer," which position carries a stipend of \$2,000 a year. The job is open to any man or woman who can pass the examinations.

Other positions open are laboratory and field aid in cotton breeding, pyrotechnic assistant, junior laboratory aid in plant physiology, computer, insurance claims examiner, technical office assistant, petroleum economist, teacher in the Indian service, stenographer and chauffeur for the veterans' bureau in Los Angeles. The last-named position is open to men exclusively.

### NEEDS OF "YOUNG AMERICA"

European Critic Thinks That Youth of Great Republic Suffers From Too Much Freedom.

George Santayana, famous philosopher and writer, in an article written especially in the Forum on "America's Young Radicals," says:

"I have made a severe effort to discover as well as I may from a distance what these rebels want. I see what they are against—they are against everything—but what are they for? I have not been able to discover it. This may be due to my lack of understanding or to their incapacity to express themselves clearly, for their style is something appalling. But perhaps this scandalous failure in expression, when expression is what they yearn for and demand at all costs, may be a symptom of something deeper; of a radical mistake they have made in the direction of their efforts and aspirations. They think they need more freedom, more room, a chance to be more spontaneous. I suspect that they have had too much freedom, too much empty space, too much practice in being spontaneous when there was nothing in them to bubble out. Their style is a sign of this; it is not merely that they have no mastery of the English language as hitherto spoken, no clear sense of the value of words, and no simplicity; that they are without the vocabulary or the idiom of cultivated people. . . . No, it is not more freedom that young America needs in order to be happy; it needs more discipline."

### KNOW LITTLE ABOUT AMERICA

Traveler Tells of Odd Beliefs That Are Prevalent Among Even Well-Educated Europeans.

Austin Stack, minister of home affairs in the former cabinet of Eamonn de Valera, tells of some of the curious impressions regarding life in the United States still prevailing among Europeans. "Among other curious beliefs is that every one who lives in America, particularly in the Western states, must be a cowboy. I find that many people habitually refer to residents of the Far West as 'cowboys' in a figurative sense, and I suppose that accounts for part of the notions that are circulated."

Mr. Stack recounted a story told to him by a friend from Butte, Mont., who was entertaining a visitor from Europe. The visitor expected to see the streets of Butte built and peopled along the lines shown in the erstwhile popular western movie, and his last noticed that he seemed to be constantly on the lookout for some one or something.

"Finally," Mr. Stack said, "the visitor turned to his host and asked: 'But where are all the cowboys?' " "Oh, they are never seen in the daytime," the other replied. "They are very shy. They only come out at nights, like the fairies."

And the visitor believed it, Mr. Stack claims.

### FREAK LEGISLATION DITCHED

Owing to frauds in circulating petitions not many of the nine initiative bills will get on the ballot. The state would suffer nothing if they were all ditched.

There is going to be a big NO vote on all these bills except the one to allow Portland to hold an electrical exposition in 1925. That enabling act will probably go through.

The five per cent interest bill, the bill to abolish private and sectarian schools, and nearly all the rest of them are bills to increase tax burdens and hamper the development of the state.

### VERNONIA G. A. R. AND CORPS FEASTED

The Women's Relief Corps of Clatskanie entertained the G. A. R. posts of Vernonia and Clatskanie and the W. R. C. of Vernonia at a big dinner at Eagles hall Saturday noon. Forty were present, six of whom were old soldiers of the two towns. Judson Weed, commander of John Bucher Post, No. 70, responded in a short toast following the feast. Commander Payne, of Shepardstown post, presided over the tables.

Those present were: Judson Weed, Comrade Schaefer, Mrs. Sarah A. Spencer, president of the Vernonia Corps; Emma Weed, Nannie B. Hall, Mamie Lane, Minnie Johns, Kate McDonald, Emma Greener, Inez Powell, May Mellinger, Alma Mills and May Rose, who brought a number of Vernonia women over.

Those present from Clatskanie were: George Wilson, Mr. and Mrs. R. S. Payne, Joseph Powers, Mrs. E. Harding, Mrs. Eva Pressler and son, Mrs. Nellie Popham, Mrs. Geo. Dye and daughter, Mrs. Lois Reed and grandson, Mrs. Matilda Matthews, Mr. and Mrs. J. J. Eastman, Mrs. Fannie Tracer, Mrs. Mary Hoyt and children, Mrs. William Holmes, Mrs. Charles Lind, Mrs. Emma Hiatt, Mrs. Lena Daly and children, Mrs. Caroline Hill, Mrs. Snider of Mayger, and Art Steele—St. Helens Mist.

### HOW ABOUT IT?

Uncle Sam has just given out some interesting figures. He shows that the people of the United States are spending at the rate of \$15 each per year for magazines, books, newspapers and printed matter. We want you to study over that figure and sort of make a mental note of about how close you are coming to spending your \$15 a year for these things. We can answer for quite a few citizens around Vernonia because there are still a number who can't see wherein a year's subscription to their home-town paper is an excellent investment. And we have reason to believe the man who can't support his home-town paper isn't spending very many dollars toward the support of papers printed elsewhere. Personally, we don't believe a man need spend all of \$15 a year to keep posted. A good daily, a magazine or two, and ALWAYS the home-town paper and he is going to be well abreast of the times. But without the home-town paper all is naught. For taking it not only shows wise judgment, but it displays the extent of a man's interest in the community in which he lives.

### PRIEST RAPIDS POWER PLANT GETS BACKING

General Electric Interests Said to Be Interested in Project; New Railway Also May Be Constructed

WENATCHEE, Wash., Sept. 30.—(Special).—The building of the largest dam and hydraulic electric power plant in the world at Priest Rapids is believed assured by the fact just made known that the General Electric interests are backing the project. The plant will develop 300,000 horse power, and will furnish water to irrigate 100,000 acres of land owned or controlled by the Washington Irrigation & Development Company.

The power plant and irrigation system will cost \$40,000,000 and the company contemplates an ultimate expenditure of \$100,000,000 in building up other enterprises, such as smelters, factories and mining enterprises.

Young man you will never be greater than your ambition.

One strike that never fails is striking out for yourself.

Return of the prodigal long skirt sure kills the fatted calf.

Loyalty to your own town causes others to feel loyal to you.

### The Educational Bill

The Compulsory Educational Bill, which will appear on the ballot at the November election was signed by the undersigned when the bill was circulated for the required signatures to be placed on the ballot.

I believe that all children should be educated in the public schools; that it makes better citizens of them than if educated in a private school.

I do not think this bill is a "drive" at any religious denomination. It affects Catholic and Protestant alike. I would not send one of my children to a private school, unless he were physically unable to attend a public school. I have no ill feeling against any Catholic nor any Protestant. It is merely a matter of opinion and inasmuch as I signed the Compulsory Educational bill, I do not wish my position to be misunderstood nor misquoted.

(Signed) A. E. VEATCH,  
Republican Nominee for Representative.

### To Begin Work

Geo. Brndick manager of the Vernonia Power Co., with his chief engineer have been in the city this week in the interest of the large hydro-electric power and light plant to be put in here. They have been placing orders for material, getting over the route, and dirt will be moved as soon as the ordered material arrives.

Mr. Joe and Geo. Nashif, of Portland were visiting Mr. Cory Tuesday.

### Knowledge Begins Where Believing Stops

Many pains and aches are due to a wrenched spine or skeleton.

Don't tell the doctor where you are suffering. As a chiropractor he is trained to locate your weakness. Let him tell you.

A straight Chiropractor is one who adjusts the spine with his hands.

Dr. Breittling is both a straight Chiropractor and Spicologist, having had 15 years of active practice in Portland, Ore., and over 10,000 patients to his credit. He is an able man.
