Busy Session Of Council

Monday night's Council meeting was a long winded one. Several questions were discussed among them the location of telephone poles on Bridge street, a drain from the High School property and allowing the railroad to move their depot, in order to put in the fill for their new building. An ordinance was passed establishing street grades over the city and several bills were allowed. The Big Mill was present with Western managers and attorney asking that their 40 acres at side and rear of grade school be taken from the city incorporate limits. They were backed by a small delegation who spoke in favor of the proposition. The mill means much to Vernonia and Vernonia feels indebted to them. Mayor White is optimistic over the good the mill people will bring to our city, but he is cautious and looks ahead. It was the Mayor's suggestion that the Council not rush the question, but talk a while before cutting the 40 from the limits, and he succeeded in inserting a clause that the mill keep up the sidewalk and their share of the road in front of their property. This the council agreed to. In a good speech on presenting their argument Mr. Schoplin of the Mill Co., made it plain that the mill intended to put their time to the mill business alone; declaring that they did not intend to plat their site into a town, nor that they did not want to build the great number of homes required if any citizen or party would erect them; also saying they could not enter the mercantile or business field. Harmony seems to exist; work is progressing, and now we feel the city will grow by leaps and bounds and on Nov. 7, we believe we will vote unanimous for water sewer light, power and a business administration.

Address Wanted

Will Frank and Ruth Powel, last heard of at Gideon Oregon, please communicate with W. R. and S. E. Bise, 3718 So. 7th St., Tacoma, Wash.

The new city charter is ready; will be printed next week and every citizen will want to vote for it, so that the city may go ahead along progressive lines. The charter is a splendid one, meeting the approval of all interests. It is agreeable to home owners, the mill people, business men and citizens. According to law the charter will be in working order as soon as we all vote "yes" on Nov. 7.

The Eagle is distributing a few free blotters that are catchy. The printed matter is old, having gone the rounds of the press in most towns of America, but good. The Oregon State Fair several years ago printed many thousands of blotters with same wording. It is a booster blotter and we are all boosters.

A new hardware store opens in Vernonia Monday, G. C. Mellinger has been arranging new goods all week in the Corey building, and has a complete line of hardware and builder's material for the inspection of the Nehalem Valley people.

Over in Umatilla, they receiving lots of good substantial advertising and prominence over their power and light. In their weekly paper the merchants sign their ads; "The Home of Hydro Electric Power."

Snow—the first of the season reported in the middle west States. We now are appreciating our warm Indian Summer weather of good old Oregon.

If you do not take the Eagle, why not?

Six thousand nine hundred divorces in one court in Chicago in one year and the city newspapers record as the important result that the Judge has collapsed from the strain. The collapse of a thousand judges isn't comparable to the collapse of six thousand nine hundred homes and the lowering of the moral fibre of thirteen thousand eight hundred men and women, not to say a word about the children. Talk about happiness being the keystone of human development may be all right, but we don't get gold we can use till the ore is crushed and washed and the metal shot through the refining furnace. If ninety-five per cent of these trail love birds were made to see that a marriage license is not a scrap of paper we we might produce a healthier and more self-reliant race.

The Telegram is Oregon's fastest Growing Newspaper.
