## Be Decent And Orderly

A few years ago, before the tribes were thoroughly tamed, we looked for the Indians down in New Mexico, to go on the "Warpath" about once a month. As civilization advanced these occasions simmered down to occasions of "Sprees" or as termed by the settlers, Only the Indians on another drunk. Under the influence of red liquor the poor missed beings imagined everything that was foolish, ridiculous, mean, boisterous, coarse, noisy, uncouth or disgraceful. They yelled they fought, they drank. They swore and used foul and indecent language, every act possible to show their ignorance. They had to be tamed and it was an untasteful job. Officers disliked to shoot them and no doubt some of them would have been better Indians dead than alive. Liquor, whether red or white, has a peculiar effect in bringing out the courser elements of a man's makeup. Some intelligent and really good conservative men of rare ability, can take a drink, a tody or a brazer, every bay, and keep still about it. A few men possessing real brains can go fishing and take several drinks without disturbing anyone. We dont approve of intemperance, or do we uphold drinking in any degree, but the uncouth, noisy, slouchy drunk, is a disgrace and a bigger disgrace

to himself than to anyone else. If a man can't behave as a man he needs to be taken care of. Newcomers to a growing community take little pride in the war-whoops of moonshine drunks. It's ever thus; but gradually they will be tamed.

## Do Your Duty, That's All

To Citizens Vitally Interested In the Growth of Vernonia; and to all of us that have families, that are desirous of health, employment: good prices for our property that we would sell; to us who have no selfish motives, or who not promised jobs to be contrary, to all of us who want to progress and who see the immediate need for water light and Power—to all, it is absolutely necessary that we be sure and be at the poles on Nov. 7, and vote "Yes" for the electric light and power franchise and for the charter and water. Yes for the charter means water, as the charter means water, as the charter has to pass to make it legal to start work on the water. We need electricity to run the water pump, and the electricity is being put in by a private company at their own expense. The Franchise has been passed by the Council and a few got out a referendum against it. They probably dont need it and have their reasons, but this people want it and need it. If we dont vote yes for the light franchise it will probably result in a contest or suit, in which event it would be absolutely impossible to get water under any circumstances—any lawyer in the world will tell us so. We must vote YES on these THREE measures or take chances on epidemics, sickness, death, a larger graveyard, snffering and inconveniences. It is a fact that the state is looking to Vernonia today, waiting for Vernonia to take advantage of her opportunity to secure these things and grow. At least a hundred people are today wanting to come to Vernonia at once if these things carry at our election. This is a fact we know of and it means more people to pay the taxes, to buy homes and to spend their money with us. We can't afford to not vote right. Every one must attend to it without fail. Read the franchise and you can easily see its fairness, and that it is meeting every demand. Vote YES for light franchise and for chrter and we will soon be living in a town as good as any one would want. We are entitled to it.

## MR. MERCHANT

### You Need the Newspaper

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save them money, and, take it from John D. Rockefeller, the way to save your dollars is first to save your penies.

Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right now. Just read what the merchants are offering. Notice the invitations for you to do business with them. Notice how attractively the advertisements are set up and how inviting they are.

Do you know that some firms think so much of a style of type that they buy series of it just for their advertisement? You can never mistake B. Altman's advertisement. As soon as you see the open type you know it is Altman's advertisement without looking for the name. This is true of many firms.

Business men—that is the successful ones—know advertising pays big returns. Unsuccessful men don't advertise because they are unsuccessful. That's the answer. Look over your town right now and pick out the big firms. They're the advertisers. Advertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today. Mr. Merchant, is your advertisement in this newspaper?
