OLD STOVES

Do you know that we can get genuine, full weight repairs for any old stove that has a name and number? Have them fixed. It pays. Give us the name, size and style of any stove, range, heater or cook, the part that you need, and we can fix your stove at a reasonable cost and in a very few days time. Broken tops, doors, legs, grates, dampers, lids, top plates, rods, etc. If the main body of the stove is burned out, warped or badly broken it might not be worth the repairs and can easily be determined. Remember we carry a line of 5' and 6', stove pipe, collars, elbows, dampers, half joints, tee joints, 5x6 and 6x7 tapered joints, etc. Come in; look around; ask questions and get prices.

We don't urge you to buy, and are glad to show our goods and answer questions.

The Eagle is issued and dated on "Friday" of each week. This month of December happens to have five Fridays, as your calendar will show. We omitted Friday, December 1, and will get out four issues this month just the same; the 8th, 15th, 22nd, and 29th. We didn't issue the first on account of an impossibility. Erecting new equipment and delay in getting the machinery worried the whole force. The subscribers will lose nothing, as your subscriptions will run a week longer. By next week we will be "caught up."

Groceries That Please

When the woman—or man—who buys the groceries knows that the food purchased is of first quality—well, that is the most important thing.

But she or he also will find the prices here most reasonable, considering the quality of the eatables to be found here.

Mr. Merchant

Do you realize the importance of getting your advertising copy prepared early?

You know our old friend procrastination. He's a cousin to the cow's tail.

Why follow, when you can lead?

Supposing all your customers left their shopping in your store until an hour before you were closing up at night, what would happen? You know. It would make great confusion, you couldn't give service and your customers would leave the store dissatisfied.

Well, in a way, that's what you often ask the newspapers to do. You wait until the ninth hour to prepare your copy, and when it reaches the office you expect the compositors to do two hours' work in one.

It can't be done.

The result is that your advertisement is slapped together in great haste, with a chance for errors and without proper display. It can't be otherwise.

Stop that old habit of putting off till the last day, the last hour and the last minute to send your copy to the newspaper office.

Get it out early when you have time to think and prepare it properly. Then send it to the newspaper office two or three days ahead. That will give the newspaper time to prepare your advertisement properly.

You can see the logic of it. It will mean better ads, better service and better results.

That's what you want. That's why you advertise.

Give the newspaper a chance.

Apply the Golden Rule.
