GREAT BATTLE OF WITS ON

Governments Seeking to Outdo Each Other in the Preparation of Weapons of Warfare.

Behind the closed doors of laboratories, in secluded workshops and in lonely bays or remote air spaces, the world has begun—with government research votes and secret funds—the strangest, weirdest battle of wits that it has ever embarked upon. Tanks that swim; great metal submarine destroyers that fly; uncanny air machines which dive silently beneath the water to hide themselves; crews that must learn to live and fight in three different elements—land, sea or air—it is with such marvels and closely guarded schemes that the great secret "pushes" of science have now begun, and the aim is power—world power on sea and land and in the air.

Even air experts themselves are staggered at the world effort we are to see this year to build larger and larger flying boats or great sea-going multi-engined hulls, fitted with vast "sails" or wings, and capable of rushing through the air at twice the speed of the fastest train.—London Mail.

of our Big, Choice Lots—only three blocks from the Highway. \$50 to \$75. on easy terms. Also some fine lots near the High School for \$200; easy terms. Be sure to see me before buying.

G. B. RICHMOND

Our Pet Peeve

THEY WILL RECITE

A certain man frequently called at the office where I was employed. One day my employer was out, and this man came to my desk and asked if he might read me an original poem. I assented. The poetry was poor.

A fellow employee caught my eye and smiled. My sense of the ridiculous got the better of me. The poet continued to declaim. I started to giggle. The more I tried to stop the harder I laughed.

Finally, when I was nearly helpless, I managed to excuse myself upon the pretext of going for a drink of water to relieve the bad cough which I suddenly developed. Afterward when the poet called I took care to be absorbed in my work.—Exchange.

Distinguished Character Artist At Head of Ward Waters Company To Open Chautauqua

Ward Waters With Two Talented Assistants Will Give Clever Program of Music and Dramatic Art.

It would be difficult indeed to find a more suitable opening Chautauqua attraction than the Ward Waters Company, a company of established artists who leave nothing to be desired in wholesome, happy entertainment. Ward Waters is a "make-up" artist of first rank, with more than twelve years' experience on the lyceum and legitimate stage. Many of his selections are original and of highest merit. His "Possum Trot" sketch is a classic.

Ferne Lewis Waters, whistler, reader and child impersonator, is a platform favorite. The third member of this trio, Grace McNett, is a xylophone artist and pianist and with Mrs. Waters handles important roles in the dramatic sketches presented.

**Add Profitable Land to Your Farm
at Less Expense**

LOTS of farmers around here cleared stump land last year with Pacific Stumping. That land is now putting money in the bank for them. It's no longer a loss. They save money on the job, too.

For Pacific Stumping gives you one-half more sticks per dollar—it has approximately the same strength, stick for stick, as any standard stumping powder. Non-freezing and non-headache.

Let us give you full information on Pacific Stumping and other du Pont explosives for land-clearing and ditching work. We can give you quick delivery and probably some helpful advice.
