

MOUTHPIECE of the NEHALEM VALLEY

COLUMBIA COUNTY

Advertising Medium of a Big Pay Roll Community

Metropolitan Methods

The Eagle has added a modern "Cut and Ad Service" the same one seen in many metropolitan papers. This advertising service is what the readers as well as the advertisers demand. The ads will be illustrated, and the Eagle will attend to the copy writing and arranging in any case the advertiser requires it. The service is copyrighted by the Western Newspaper Union, and the cost to us is in three figures for the years contract. The advertisers using it, however will only be out the small sum of one dollar a month for all extra ad service and for the cuts used. We have arranged for hundreds of cuts to choose from each month, so that each week ad can have a new cut if desired at no extra cost. Pictures in ads are used more every day, and we felt that the time had arrived in Vernonia when the paper takes on steps toward a metropolitan sheet. There are twelve hundred people in Vernonia and we don't believe there are a dozen families not reading the Eagle regularly every week. These people read the ads and henceforth we expect the ads to be better reading. We want no ad from any individual that is not absolutely the truth as to quality or price advertised. You can depend on Eagle ads. The new service will go in effect in August, the beginning of our second year in Vernonia. Any firm not wishing this extra ad service will please notify us.

On a Magnificent Plan

The big mill now being constructed in Vernonia is wonderful. It is the biggest undertaking in Oregon today. If space would permit, this week, we would like to again tell of the magnificence of it. The big Burner now being built is 90 ft. in diameter and 125 feet high, the pond will cover over 40 acres the buildings and yards will cover 200 acres. Many men are at work and the immense job is being rushed.

If Henry Ford had to quit making autos and wanted to do something that would make him the idol of the people, he'd produce motion pictures as good as "Westbound Limited," to be shown at the Majestic Monday and Tuesday nights. A mighty production of fish and steel. A head-on collision.

FIVE HUNDRED GUESTS ARE EXPECTED FROM TOWNS OF COUNTY

The annual county picnic of the I. O. O. F. will be held in Clatskanie Sunday, July 29. The lodge is expected to be the host of about 500 Odd Fellows and their families from the four lodges in Columbia county. Rainier, St. Helens and Vernonia are the other towns having charters. Ray Bryant is chairman of the local committee and he says he is expecting every Odd Fellow in the county to come and bring his wife or sweetheart or both. C. S. Bristol and Kenneth McGilivray are the others on the committee. An old-fashioned basket dinner, sports, an Odd Fellow baseball game, another game between Clatskanie and Kalama, music and an address are all going to be a part of the big picnic. All the visitors will bring basket lunches and the local lodge will furnish ice cream and coffee.—Chief.

W. R. C. TO ENTERTAIN VERNONIA CORPS

Shepardstown Relief Corps held another of their interesting meetings on Saturday, July 14, and among other business disposed of they made their final plans for a dinner which they will serve on July 25 when they will entertain members of the G. A. R. and W. R. C. of Vernonia. These occasions, when the Vernonia people visit the Clatskanie meetings are very enjoyable affairs and all are looking forward to that day.—Clatskanie Chief.

Are We Blind?

If Bridge street isn't fixed up and if it isn't done soon, it will be impossible to use it this winter. We can't run a ten-cent town any longer; people are getting tired of it. If the property owners want the street paved and all sign a petition to that effect, and if street bonds are passed, the construction company would take the bonds at par. What is needed most is a head to affairs. Co-operation and leadership. Someone to go ahead and start the needed improvements. And when started they need finishing.

BURGLAR ALARM SYSTEM

The Bank of Vernonia, always up to the business demands of such an institution, is now installing an electric burglar alarm system. This is the latest and most modern system of its kind on the market today. It is absolutely burglar proof as far as the alarm part is concerned. So arranged that it works even if wires are cut. This added protection given by every citizen in the valley.

A beautiful new Buick sedan car with all the latest dodads belongs to Mr. W. O. Galaway. It rides like a rocking chair, because we tried it and know. A ride up Rock Creek this week also shows us one of the pretty drives of Oregon. Some nice farms on this road that need cleaning up. Some day this Rock Creek road will be a succession of fine dairy farms and the sooner the better for owners and for the community.

Saturday night crowds in Vernonia are getting so thick that the main street won't hold the machines. Last Saturday night it was almost impossible for a machine to get through. WELCOME HERE

Warren is about to lose some of its citizens who purpose to live at Vernonia. O. W. Johnson, William Hamerbeck and E. G. Skarberg leave on Monday for the inland metropolis. They will engage in the building business in that town, all being experienced carpenters and builders. They have already purchased four lots in West's addition and will begin the erection of houses at once, something that Vernonia needs badly. Warren folks regret their leaving but must congratulate Vernonia on their acquisition. Some of Warren's finest residences are the handiwork of the boys. May success attend them in their new venture.—St. Helens Mist.

NEW HOTEL

Mr. Hodges, of the Vernonia Mill Co., explained the new building he is building just west of the depot on the mill property. It is a hotel, lodging house and restaurant for the mill men employed at that plant in Vernonia city limits. Shower baths are being put in and the building to be finished in a modern way. Room for about 25 men day and night.

Pathetic Accident

Many industrious young men, full of ambition, seek a new field of work, for the experience before settling down, to end up in fatal accidents similar to that one here at the O. A. Camp Tuesday morning. One Max F. Garz, a stranger to the country and the work, coming from Wisconsin, where his parents reside, met sudden death by a swinging log hitting him. The young man, we understand has a sister in Portland, he had a homestead in Wisconsin and some 500 dollars with him. He was a man not yet 30 years old, well built and industrious. It is just another sad and fatal accident that the world records every minute. Sympathy is extended to some mother and father unknown to us.

To Celebrate

We hear today that the Second Annual Vernonia Day celebration will be put on by the Vernonia Athletic Association, and base Ball Boys. The event will be held on Friday and Saturday, Aug. 24 and 25.

You know there are always things coming up on any subject that are not considered by the public when the public don't know. The water system, the cost, the council workings are all right as far as we know at this writing. The public can't keep up with everything, in fact are not supposed to. We leave that to the Council, that is what we elect the Council for. For instance in the water question. There has been additions and new extensions added since the first contract. This has been absolutely necessary, to reach all the people in a fast growing town. These improvements cost extra money, and they are worth it. Every part of town is as important as any one part.

Attention Men

Mending or patching done at the Bazaar. Vernonia Hotel.

Wm. Folger was in Portland Wednesday, returning with Mrs Folger and Little Miss Harriett Freda. The little lady says Vernonia is the second largest city she was ever in.

One Dollar Will Do It

IT only takes a dollar to open a savings account at the Bank of Vernonia—the one you have in your pocket right now will do it.

Take that dollar out and look at it—just dedicate it to that purpose and, once you start, you'll surprise yourself at your ability to save.
