The Consolidated Motor Freight Lines, Inc., Oakland, operates a fleet of large trucks in merchandise transportation. Zerolene oils are used exclusively.

A big motor freight line settles THE OIL QUESTION—

The Consolidated Motor Freight Lines, Inc., of Oakland, Calif., has solved its lubrication problem — by standardizing on Zerolene.

Independent Tests Verify Claims

Subjecting the anti-western oil superstition to the test of actual comparison in service, this Company verified independently our claims that Zerolene will lubricate the modern automobile engine as well or better than any oil on the market, irrespective of price, and whether of eastern or western origin. A part of their letter follows:

"During the past three or four years we have experimented with various brands of eastern and western lubricating oils, including Zerolene oil. The results of these tests have proved to our satisfaction that Zerolene lubricates our equipment with the greatest efficiency.

"Our recent decision to lubricate our trucks exclusively with Zerolene oils has resulted in the reduction to a minimum of mechanical difficulties which were due to faulty lubrication."

Less Carbon—Better Gasoline Mileage

ZEROLENE F for FORDS

—the Standard Oil Company's new improved oil for Ford cars, "Feeds Those Oil-Starved Fords."

Why pay tribute to a superstition? The use of Zerolene, of the proper body, will not only cut down your oil bill, but give you better continuous lubrication, and better lubrication means greater gasoline mileage, less carbon, lower upkeep costs, and a longer life for your car.

Insist on Zerolene, even if it does cost less.

STANDARD OIL COMPANY (CALIFORNIA)

This booklet reports independent service tests of Zerolene made by a number of large users. Ask any Standard Oil Sales representative or Zerolene dealer for a copy.
