THE GLORIOUS DAY

Easter is the Emancipation anniversary of the Christian world—the one day of all the year, next to the advent that is the most glorious and worthy of signal remembrance. It brings with it a new inspiration of faith in God and of perfect assurance in His love for the children of men.

Every swelling bud and sprouting leaf reminds us that the life which conquers death in nature's realm has its parallel in the the Resurrection—that great central fact of Christianity—in which we have the assurance of our spiritual revivification. Christ in us becomes the vitalizing force which lifts us from the darkness of sin and death into light and life everlasting.

This old world of ours needs more Easter cheer. It needs to realize that the risen Christ and the empty tomb have for the whole race a grander and higher significance than any other event since time began. It needs to grasp the imperishable truth that when the Son of God burst the bars of death and the grave, He revealed the way of life eternal to all who accept Him and follow his footsteps. His resurrection was the divine pledge of our own, and the soul that rests upon Him has already risen from the deadness of sin and begun the life everlasting. For such, the grave is not an abiding place, but the vestibule of the greater and nobler life beyond.

Therefore, at this joyous Easter time, when all nature is rejoicing, let our hearts join in the songs of praise and gladness. Around us we see the woods adorning themselves with the living green and the air is resonant with the song of birds. Over all the earth, wherever the name of Jesus is known, it is the glad emancipation time.
