TEN MILLION OF THEM

Detroit, Mich., June 4, 1924—A new and outstanding achievement of the automobile industry of America was attained here today when the ten millionth model "T" Ford Car left the final assembly in the Highland Park Plant of the Ford Motor company.

The motor, bearing the number 10,000,000 was completed this morning, and reached the car assembly line early this afternoon, and was assembled into a touring car, the most popular of all Ford body types.

In celebration of having attained a 10,000,000 production record, the company announced that Ford Car No. 10,000,000 will make a coast-to-

coast trip as signifying the nationwide popularity of the Ford Car and its appeal to every class of driver.

The car will be shipped to New York within a day or two and leaving there will be driven across the country to San Francisco. The Lincoln Highway has been selected as the official route of travel and steps will be made at most the towns along the line. Frank Kulick, who years ago attained fame and broke many records as the pilot of Ford racing cars, will be at the wheel of the ten-millionth, during the trans-continental trip.

Model "T" Ford cars are today in use in every country on earth and the unusual success which has attended the Ford Motor Company dates principally from 1908, when the Model "T" was developed and first introduced on the market.

The company was among the first to adapt the unit power plant and the left hand drive control, and it was the originator of such fundamental principles as the removable cylinder head, three-point suspension and torque tube drive, all incorporated in the Model "T" and which have since been generally adopted in the automobile industry. The correctness of these basic features has been strikingly proven by the fact that in the entire ten-million production, while improvements has a constantly been made, there never has been any deviation from the original principals of the Model "T".

Previous to the time that the Model "T" was introduced the company had built and sold approximately 25,000 Ford cars of other models. The first Model "T" was completed October 1, 1908, and it was seven years later, December 10, 1915, when Motor No. 1,000,000 was produced. Since then, under an ever increasing demand, production has steadily grown until a new output record was established in turning out the last million cars in 132 working days.

The Editor, Vernonia Eagle, Vernonia, Oregon.

Dear Sir: "We will appreciate you giving the following article the widest publicity practicable in an early issue of your paper:

"Sergeant Sam Berman, from the Regular Army Recruiting office,

Portland, Oregon, will be in Astoria Oregon, on recruiting duty, from June 6th to 11th, 1924 inclusive; after that date in Portland, Oregon. Sergeant Berman is authorized to make enlistments for practically any Camp or Station on the Atlantic or Pacific Coasts, Mexican Boarder, Philippines, Island, Hawaii or Panama. The Sergeant is making special effort to secure men for the 29th and 16th Infantry and the Army Bands.

The 29th Infantry is stationed at Fort Benning, Georgia, where the largest and most modern equipped Infantry School is situated. A soldier that is fortunate enough to be sent there has an opportunity to learn which not only benefits him in soldier but also in civil life.

The 16th Infantry is situated at Governor's Island, Statue of Liberty and Fort Wadsworth, all in New York Harbor. Five cents carefare from either of the stations to 42nd Street and Broadway—New York City. The 16th Infantry was the first regiment of Infantry to go to France during the World War and the last to return.

There are also a number of vacancies in the Army Bands, in which a soldier has an excellent opportunity to become a proficient musician, under some of the best instructors in the United States.

Men enlisting for the 16th Infantry and other organizations on the Atlantic Coast, will be sent from San Francisco, California, by Army or Navy Transport through the Panama Canal to New York City.

ORDINANCE NO. 80

AN ORDINANCE PROHIBITING THE DUMPING OR CONVEYING OF GARBAGE OR SEWERAGE MATERIALS INTO ALLEYS OR STREETS

The City of Vernonia does ordain as follows:

Clever Entertainers Billed to Come Here  
 Baughman-Pefferle Duo Brings Variety, Charm and Beauty to Chautauqua.

Cornet concert solos, soprano and piano solos, ensemble numbers, character readings and costumed character skits are among the features included in the programs of Harriet Baughman and Thelma Pefferle on the fourth day of Chautauqua. These beautiful western girls are versatile artists and give a full and satisfying entertainment.

As a concert cornetist Miss Baughman has established an enviable record. Her playing is that of a finished artist and her double mouthing produces most inspiring tone effects. She is also a pianist and impersonator. Miss Pefferle has a beautiful soprano voice and is a dramatic reader who lives her character. Costuming has been given careful attention by these young ladies and their act is exceptionally dainty, refreshing and refined. In their several "groups," including the Dutch, the Gypsy and the old-fashioned, they include a few steps to suit each nationality and character, and the general effect is always tremendously popular.
