HEALTH TALKS

AN IMPORTANT RESOLUTION

Resolve to be healthy and to keep healthy by adopting Chiropractic as your health method. It is sane, simple and satisfactory. It deals with the cause of disease and does not treat the effect. Treating effects is obsolete and, at the best, only gives temporary relief. Locating the cause and adjusting it is the modern way and gives permanent relief. Adopt the modern way, Chiropractic. Be healthy and see that every member of your family is healthy. Consultation and spinal analysis free.
