Dr. Hall has been appointed Health officer, or City Physician for Vernonia, by the Health Committee of the City Council.

This month on the 19th is Lee's birthday and the 29th is McKinley's Day.

Time to think about painting your houses.

Don't you want some statements printed. Patrons want and expect them monthly.

Swiss or American Mode Wrist Watches fixed at Kullander's Jewelry Store. Work guaranteed.

Deal Cantry is back in town feeling fine after his operation.

Mr. and Mrs. Chas Justice and children returned Monday from Buckston where they have been visiting.

W. M. Tipton and family left for their home in Kelso last week.

Mrs. Purcell Cline visited Mrs. R. F. Nance Thursday.

The old Vernonia mill was sawing lumber this week. This is the mill west of the depot, that has been shut down since the career of Mr. Hodges who formerly conducted affairs there. We hear that the mill was sawing up what logs remained in the pond. But the whistle sounded good and we hope to soon see it running every day. Several small mills make a big one and we want to see them busy.

Mr. Allen, of Vernonia, pled guilty to selling cigarettes to minors and was fined \$25 and costs.

This year, so far, the girls are champions over the boys when it is playing basketball. Our girls team won from the Scappoose last Friday night 25 to 5, while the Vernonia boys team lost to the Iron town team 14 to 15. Close at that and two good games.

Ingersoll Watches, all models, at Kullander's Jewelry Store.

He rang in a little sooner than the fellows in the shop, and he stayed a little longer when the whistle ordered "Stop"! He worked a little harder and the talked a little less, he seemed but a little hurried and he showed little stress; for every little movement his efficiency expressed, thus his envelope grew just a little thicker than the rest. He saved a little money in a hundred little ways;

he banked a little extra when he got a little raise. A little "Working model" took his little "leisure" time; he sought each little part of it with patience most sublime. Now it's a very little wonder that he murmurs with a smile as he clips his little coupons. "Aren't the little things worth while?"

Best make Alarm Clock, guaranteed at Kullander's Jewelry Store.

The school, at Mist, was closed last week on account of the numerous cases of small pox in the community.

The new Mayor of Rainier gave some good advice in last week's Review, that can be applied with no ill effect in any city. He said:

"I hope to have the support of the people while I am in the office of mayor. This, the retiring mayor has not had, and this is one of the great troubles of the town. One should have the support of the entire people. People should look at it in that light. The same can be said of the marshal. How many are willing to report a bootlegging case to the marshal? The people must get behind the officers or we will never get anywhere. We should try to make the council a benefit to the city at large. The first thing to consider is the benefit of the town. We are elected by the people for the benefit of the town. We should remember that all the brains are not on the council, but we should consult the people." Mr. Reid also made an appeal for the council to protect home institutions against the outside dealer and that we should all spend our money at home as it would be a help to those who pay the taxes.

Dr. and Mrs. Cole have moved into their new residence.

THE MOTHERS of this community are the buyers of the goods required for the home, themselves and the children—and, in large measure, for the men as well.

These women are the closest readers of the local newspaper. A message in the Eagle is sure to be read by the very people the home merchant must reach with his "store news" ADVERTISING is the bond of confidence that ties your store to the homes of the community. The home-makers expect to be invited to your store. Are you willing to be shown that AN ADVERTISEMENT IS AN INVITATION?

Always a little greener pasture further ahead. Always some other part of the country looks better. But all other places are calling Vernonia the best bet in Oregon today. We have talked with people from Crescent City and other talked of places who say Vernonia has more now than is promised for the other places.

There will be lots of home buying and lots of home building in Vernonia this summer, and now is just the time to locate here. Vernonia is a good home city with all chances in its favor and nothing to lose. Visit some distant towns and you will be convinced.

PLEDGES HIS PAPER TO THE SERVICE OF HIS COMMUNITY

Walter B. Sanders, editor of the Munda (N. Y.) News, carries under his masthead, first, this quotation from Lincoln, "Let us have faith that right makes might and in that faith let us to that end dare to do our duty as we see it," and beneath that, in a box, this pledge to community service:

"The News is pledged to the service of this community and surrounding towns; to present the news every week simply and truthfully, without bias and to comment honestly on public matters. It does not wish or attempt to force its own opinions on its readers, but encourages each one to form his own conclusions. The News has no axe to grind and it dedicates itself anew to its steadfast purpose to be the people's paper—your paper, devoted to the best interests of the community, the state and the nation."

That's our policy.

on account of sickness in that community.

AT A PREMIUM

No longer can they poke fun at the small towns of this country for they are coming into their own. Towns like Vernonia can rejoice at every increase in population of the big town, because with each increase comes a pushing out and a growing desire of those who have lived in them for years to get into the rural districts or suburban settlements. The reason is plain. Congested cities are not as desirable for homes as the smaller towns, unless one is able to own a home along millionaire row. Smokestacks and tall buildings make for efficiency, but not for morality and happy living.

The day will come, in fact it is just about here, when the smaller community can provide for the needs of citizens as well or better than the great city. Its library, schools, churches and stores are more accessible and just as efficient, and without the distractions so common to thickly populated districts. The children are safer, both physically and morally,

and from the standpoint of health, there is no comparison. But, greater than all these, the smaller towns provide an opportunity for friendship, for knowing and meeting and greeting the other fellow, that always will remain an unchallenged asset over that of the city. There will ever be found a spirit of fraternalism and neighborly solicitude that the large city cannot hope to feel or know. There is no cause these days for poking fun at the small town, and very little of it is being done. Only the densely ignorant are doing so, and their number is fast diminishing.
