Vernonian Teacher—Since the women have been voting I am curious to know how many votes were cast in the United States at the last presidential election. Can you tell me?

Ans.—We don't know just how many votes were cast in the United States at the 1924 election, but there were 28,930,837 legally counted.

Please—What day of the week was I born on, the date being March 4, 1899?

Ans.—You were born on Satur-

day.

M. F. B.—What state in the union has the greatest population to the square mile, and also the state that has the least population to the square mile?

F. W.—In what state can a girl that is 11 years old get married?

Ans.—None, except in nine states where the common law applies. Those nine are: Connecticut, Florida, Idaho, Massachusetts, Michigan, Missouri, New Jersey, Rhode Island and Tennessee.

Mother—I want to ask you what my boy, who was born on March 3, will be best fitted for when he grows up, and what will his temper be?

Ans.—Most persons born in the first half of March find their best place in life when working for other people. Most of them are rather timid and sensitive and their feeling are easily hurt. As a rule they are thrifty and neat in personal appearance.

Grade Student—I wish to ask you how much a pound (English money) is in United States money; also the crown, the schilling, the sixpence and the penny?

Please Answer—Which book is found on the parlor table in the most homes in this District, the Bible or Montgomery Ward Catalogue?

Don't you always notice that it is the "well designed" house that stands out—that appears more home-like—that sells for the most money when it does change hands?

Maybe you have figured out during the winter months that you are in position to build this spring. But possibly you are still undecided on just what type of house you can afford to construct, just how much you want it to cost.

WE CAN SHOW YOU HOUSE PLANS AND FIGURE ON BUILDING MATERIAL SO CLOSELY THAT YOU CANNOT LONGER AFFORD TO PUT IT OFF

A BIG YEAR

We have inside reports from lumber men and material dealers all over the country. They say it will be a big building year. That means that lumber and material will ascend as the demand grows.
