Ans.—Because she instinctively believes in advertising. M. Y.—If I dearly love a young man and he dearly loves me is there any harm in kissing each other as often as we please? Ans.—Yes. Newport—West Coast Power Co. preparing to install new lighting system. If your business is exceptionally good and you have no room for more clerks, you don't need advertising on as large a scale. If business is not as good as you want it you need advertising, good advertising. Advertising in your home paper is simply talking to old and prospective customers in your own language. If so, please explain. Ans.—"Rotor" is short for rotatyp. It is a part that revolves in a stationary part, and is also the rotating member of an electrical machine. We don't know of any being used to drive aeroplanes. Jonson Porter—I was born on March 3, 1878. Will you please tell me what day of the week that was? Was it an unlucky time? And was it a leap year? Ans.—March 3, 1876, was on Friday. Only the superstitious believe in "lucky days." Very few born on March 3 ever became very poor. The year 1878 was not a leap year.
