

EAGLE FEATHERS

Just let the average Vernonia citizen get the idea that boot-legging is conducted by a heartless trust and he'll start yelling his head off.

The papers refer to Rockefeller as an uplifter. We notice around Vernonia that he uplifts the price of gasoline every now and then.

The one difficulty about cutting off the expense of government is that most all of the expense can vote.

A Kansas editor admits he is a regular reader of the Congressional Record. Now we know what's the matter with Kansas.

We don't want to start anything, but isn't it about time someone around Vernonia was starting the annual report about the fruit crop being killed?

If you smell gas or gasoline and start looking for it with a lighted match it's a sign you're going on a long journey.

It's wonderful what science has done for us. Nowadays you don't have to spit into a box of shoe-blackening to make it stick to the brush.

The average Vernonia husband doesn't sneer so much at housework when his wife gets sick and he has to fix his own breakfast and dress the kids.

One thing the world war did for America is to make future warfare a strictly cash-in-advance proposition.

The trouble with prohibition enforcement seems to be that too many

of the juries are no better than the fellow being tried.

About the only time a Vernonia fisherman ever tells the truth is when he calls another fisherman a liar.

From newspaper reports Turkey has but one fixed national policy—and that is hunting for trouble.

Maybe President Coolidge prefers sausage for breakfast because it represents a little bit of everything.

We've some smart citizens in Vernonia but how many of them can tell why a chicken lays its eggs at home but goes into a neighbor's yard to do its scratching.

Some men can't stand prosperity, but most of us never get a chance to find out whether we can or not.

Our advice to all young men is to keep in mind the fact that you never get ahead of anyone so long as you follow in their footsteps.

The average Vernonia man thinks his neighbors dull, but they can't tell the difference between a social called and a cillecto.

If they sent every autoist to jail for not knowing his license tag number where would they find a jail big enough to hold them?

Music is getting so you can't tell if the neighbors are playing the phonograph, fighting, crying or washing the dishes.

It's pretty hard to understand some Vernonia women's tastes when you see the kind of husbands they are jealous about.

When a man falls in love very hard he naturally breaks something, even if it's only himself.

Father Sage Says:

The old-fashioned man with a lot of nerve, now has a son with nerves.

We heard of one man not far from Vernonia who bought a radio so he could hear Sunday sermons. But his neighbors say it is because the radio can't pass the contribution box.

A church is opened with prayer, but it's different with a printing office. It is opened by the "devil" and closed by the sheriff.

1925 Queen of Paris

Milie Georgette Freigneux, elected queen of queens for the year 1925 in the mid-Lenten fete of M-Carema. Milie Freigneux was selected from 20 girls representing 20 arrondissements in the French metropolis.

"Service Is Our Motto"

The big book, the sixth Biennial Report of the State Highway Commission, is a wonder, and shows many miles of beautiful highways, but as usual not a word about the "Inland Highway from Portland to Asaoria, Via Vernonia. Why should it, when there is no such highway. But why isn't there such a highway?"

Mrs. Ethel Davidson is the new clerk at the Miller Mercantile store. Mrs. Davidson is a sister of Mrs. Bergman.

Mr. and Mrs. G. R. Amick left for Portland Sunday where they will make their home. Mr. Amick having employment there.

We heard a man remark, this week, that he stood in the Portland Hotel lobby and heard three wealthy men, investment seekers remark: "Where is Vernonia, I never heard of it."

Vernonia wants a pulp mill, a brick yard and box and furniture factories. We get nothing if we don't ask for it.

The Woman's Relief Corps met Thursday, April 18. A new member, Mrs. Brendle, was initiated. Plans were made and committees appointed for the proper observance of Memorial Day. The Corps and John Bucher Post G. A. R. earnestly ask that there be no amusement that are not in keeping with the spirit of the day. A dinner and bazaar will be held in the ear future, date will be given later.

A. L. Morris was over from Warren this week.

About the only news this week is that every body is sick. Flu, Grippe and bad colds has hit the community and many are "under the weather."

Deputy Game Warden Willitt Brown was in Vernonia Monday.

Thomas Solomon has rented the Malmsten farm and moved on same.

Two Pittsburg farmers were before Constable Kelly this week accused of cruelty to animals. After giving them a good lecturing on the care of stock and on their promise to do better in the future, they were allowed to go.

Advertising Is—

Advertising is telling others things you would like them to know. Speaking to the multitude instead of to the few. Telling a story in a day that would otherwise take a year. Saving time by multiplying your sales-appeal. Letting everybody know what only a few people know about your goods. Telling the world why you are proud of your goods. Going to the public instead of waiting for the public to come to you. Making your business safe for success. Sowing the seeds of ideas that grow

into sales and what is more—good will. A wholesale reminder to the public of what you have to offer. Telling again and again the things that the public ought to know. Re-creating in the minds of the public, the sales ideas in your own mind. Increasing the radius of your success by increasing the radius of your sales-appeal. Telling the story in print instead of in person. A method of multiplied telling of facts that is the most economical. A means of making personal effort more productive. Making your voice reach from house to house.—Greater Clairton (Pa.) Progress.

1925 Star Sport Sedan with the Million Dollar Motor

Quick Pick-up means POWER

When a car can accelerate from 5 to 25 miles an hour in 4 1/2 seconds, it means power. That's what the Million Dollar Motor in the 1925 Star Car guarantees. Power—abundant power—power for speed, power for hills, power for the tough going, sand, mud.

It cost a million to build, but you'll say its worth it, every cent of it. For the first time, real power has been built into a low cost car.

Drive this new motor. Get the thrill of real power—that's all we ask.

Today—at your Star dealer's—test out this new motor.

VERNONIA BRAZING & MACHINE WORKS

[See It at Your Dealer's. Drive It. Compare It]

A tire made for the West. in the West!

IN A FEW MATTERS we Westerners gladly hand the palm to our Eastern friends. Building subways and skyscrapers—yes! Football—possibly. Climate—improbably. Pleasure auto driving—no!

We drive more months of the year . . . have greater scenic attractions. The "great open spaces" draw us farther from home. We know roads—and autos—and tires!

Which, in a way, accounts for the success of C-T-C tires. They are built in the West to meet Western conditions.

Eastern engineers came West to build them—but they make them for the West as well as in the West!

Today they are ranked as one of the three or four really fine tires in America. They are the largest-selling tires made in a Western-owned factory.

Motorists in the nine western states know what a tire should do. Their purchases show that C-T-C does it!

* Come in and let us show you this remarkable tire.
