

EAGLE FEATHERS

The only thing the average Vernonia man hates worse than a homely girl is a "pretty man."

A girl drops her maiden name as soon as she is married, and a few weeks later she drops the idea that she married the finest thing that ever came down the pike.

Next to pictures of a traffic cop, pictures of Hindenburg look meaner than anything we ever saw.

Some Vernonia children find it pretty hard to earn respect from a father who can't earn money faster than they can spend it.

It appears that the easier it is for some of them to get married the harder it is for them to stay that way.

We may be wrong, but it seems to us the world was better off when young folks learned at mother's knee instead of at a dance hall.

If you want to try something difficult, try to convince a Vernonia boy that such a thing as an over-production of watermelons is possible.

Another good way to commit suicide would be to drop in at Paris and holler, "Keep Cool With Hindenburg."

Michigan has revived the whipping post for robbers. Now the next thing in order is to catch the robbers.

Every married man in Vernonia knows he can make a hit with a neighbor by telling her she bakes the best cake in the world, and he also knows better than to let his wife find out that he said so.

When Ford's airplane factory gets going good anyone can guess who will have the right-of-way.

The Memorial services at the Evangelical church last Sunday drew a church full of people. It was a union service. Rev. Hoady of Portland and a Civil War veteran, preached the sermon.

Last Saturday was Tag Day for the Vernonia library, and if you didn't buy a tag you were an exception. The library realized \$133 from the tag sales, and with some money already on hand the promoters have a splendid start for the library.

twenty Legion members were given the second degree in the "Sumar Afro," order of the Flying Apes.

With our drum corps playing, the victims were lead one by one before the high snapper of the Sumar Afro who ordered the torture squad to prepare for action. One of the victims became inflamed with a wild desire to kill the high commander of the Sumar Afro and nearly caused a riot by scattering a pack of Bull Durham in the air, said bull getting caught in the eyes of flying apes. The tobacco came in mighty handy for some of the boys who had not been paid for a few weeks. The biggest thrill of the evening was when one of the new Sumar Afro, who had been a marine during the World War, told of his experience while sailing around the Bay of Biscay, 1917 to 1919. He claimed he was captured by the Germans when one of their subs sank the transport he was doing duty on and that during the time he was a prisoner, he seen a German soldier brought in from the front who had been gassed. The army doctors could not pro-

nounce this man dead on account of his heart which would give a flop every three or four minutes and that in order to make sure that no mistake would be made, they cut this baby open, layed his heart on a small table, and just whe it was ready to give another flop, they beat said heart to death with a club. This tale was pronounced the biggest lie told during the year 1925 in this post, and said ape who told same was ordered to drink a pint of foggy soup filled with tacks. Colonel Hesaliar.

About a hundred people visited Sheeley's Grove last Sunday. A picnic of Vernonia people and the Vernonia band was there and the day indeed an enjoyable one. This Grove is one of the best natural parks in the state and should be made a "state park." situated on the inland highway, and patronized by hundreds every year. Wish some one would take the matter up with the state highway commission.

The West is the Mecca of men of vision,

THEY FELL in love with the West... can you blame them?

Akron tire engineers with records of success running back a quarter century, knew the future held much in the East.

Yet when the West won them, they gladly transferred their training, skill and resources to the Pacific Coast.

Today C-T-C tires bear testimony to this pioneer move! Thousands of motorists in nine Western states have discovered that C-T-C engineers have put something into these tires that makes them outrun others. Some call it "stamina"; some "quality". Others declare that the very training and skill of the engineers is embodied in every tread and ply.

We shall be glad to give you expert information about your tires, and — if you need them — put on C-T-C's — either balloons, semi-balloons, heavy-duty cords or oversize cords!
