

Un-superstitious pedestrians often do this

—Proving that a post can divide two people without splitting their friendship. In the same way experienced motorists have proved to their complete satisfaction that Zerolene, a western oil, will lubricate the modern automobile engine as well or a little better than any oil they can buy, although it costs less than eastern lubricants.

The anti-western oil superstition succumbs to experience

Zerolene is successfully lubricating more cars in the Pacific Coast states than any other oil made—low and high priced cars alike. The most advanced refining process is this Company's patented high-vacuum process, during the use of which Zerolene is submitted to 15 positive checks for quality. Zerolene's special filtration through 40 tons of Florida Fuller's Earth gives you an oil of absolute purity—a better oil even if it does cost less!

Less carbon—better fuel mileage

Zerolene will increase the power and gasoline mileage of your car, reduce carbon accumulation in the cylinders and lengthen the working life of the engine.

Why pay tribute to a superstition? Insist on Zerolene—ask for it by name.

Get the Facts!

A series of independent and impartial reports showing the experience of large users with Zerolene has been collected in our booklet, "Why Pay Tribute to a Superstition?" Ask any Standard Oil Company representative or Zerolene dealer for a copy.

Insist on ZEROLENE even if it does COST LESS

STANDARD OIL COMPANY (CALIFORNIA)

The more dishwater a wedding rings sees the longer it seems to last "But," protested the new arrival, as St. Peter handed him a golden trumpet, "I can't play this instrument, I never practiced while on the earth."—"Of course you didn't," chuckled the old saint. "That's why you are here.

In Detroit, a broker is sentenced for 130 years. That will hold him for a while, no doubt.

Much of the politeness these days consists in offering a lady your seat when you get off the street car.

"Motehr, have you got a nickle for a poor old man?" said little Johnny of Tucson, Arizona.—"Where's the poor man, my son?"—"Down at the corner selling ice cream cones."

A hint to Epicures. Wife—"Have you really told the cook that she and her sweetheart are to dine with us? Is that quite the thing?"—Husband—"No. It isn't the thing, but I'm getting tired of his always having the best of all the food.

A scientist estimates that the earth will last about a hundred million years longer. This should give Germany and Italy plenty of time to settle their war debts.

Senator Borah asks what is a Re-

publican? Maybe he is thinking about trying to become one.

Virtue being its own reward, the recent Congressional salary increases must have been for something else.

King Boris of Bulgaria had better swap his government's policy for a good accident policy.

When you come to think of the matter it is because of his fool luck that a fool gets the money he is fool enough to part with it.

"So you got stung on a goldbrick eh?" asked the visitor. "Depends on how you look at it," answered the Michigan farmer. "I took that goldbrick in exchange for summer board."

So many mothers have started to using rogue their daughters may quit it or be considered old-fashioned.

London News. Man in Liverpool left his fortune to a girl who refused to marry him. Her kindness was never forgotten.

One-half of the world doesn't know how the other half lives, but it would give a lot to know.

Many a man who doesn't kiss his wife because she looks sour will find she looks sour because he doesn't kiss her.

CARPENTER LECTURES ARE THRILLING

Such subjects as the origin of man his three fold nature and what it enables him to do are frequently brushed aside as too deep and dry for popular interest but a noted astronomer and scientist who is coming to Chautauqua is going to open the flood gate of astonishing enlightenment on the stories of the heavens, the universe and its worlds of mankind, and the late developments of science. He is Dr. A. D. Carpenter, whose dynamic personality and eloquence alone could hold any audience spellbound, but who will submerge his personal accomplishments for the greater entertainment of relating what we all should know but generally do not.

Dr. Carpenter will give three consecutive lectures, beginning the afternoon of the second day's program, which fit into each other and form a complete story of the secrets of the universe. No fairy story ever entranced children more than these scientific facts which are told in the simple language of the everyday man woman and child. High school and grammar school pupils, like the men in Alaska, "just eat these lectures up," according to reports from several prominent Principals. Sunday school scholars have their teachings presented in a new and understandable form.

Carpenter interprets the unknown in terms of the known, and awakens an amazing new interest in Infinite Causes, in nature and in human life. Questions are answered in the final lecture "Man and the Universe," which brings the facts revealed in the preceding lectures to a supreme climax. Facts which men have studied about but were too perplexing for solution are made clear. Science which formerly appeared dull and dry, immediately becomes illumined with startling, vibrant facts.

The Carpenter lectures are thrilling. He is the first scientist of note to put a real human touch to findings made through years of collegiate and laboratory research. The pageantry of the Heavens, the wonders of nature, the universal intelligence, and the universality of laws become awe inspiring realities as he unfolds their secrets simply, eloquently and impressively. Dates of the Carpenter lectures are the afternoon of the second day and the afternoon and evening of the third day.

City people have a lot of fine things to wear. Country people have lots of nice fresh things to eat. Take your choice.

Pedestrians are getting so particular they want to be run over by an expensive car nowadays.

Will Florida send Bryan to Congress? If she doesn't, her realtors will be overlooking some valuable advertising.

A girl asked another to take a persistent suitor off her hands saying: "I know you'll get along together like ham and eggs."—"Maybe so," said the second girl. "Is he a good egg?"

Things are coming to such a pass, says a Flint, Michigan manufacturer that it will not be long before a manufacturer will be unable to sell a motorcar unless he is able to furnish parking space to go with it.

Belleplaine (Ia.) boy twins can't be told apart, not even by finger prints, so two girls will have a twofold time later.

"GENUINE" BULL DURHAM According to Dr. Wiley's analysis "Genuine Bull Durham Tobacco" is composed of the following ingredients:

- Alfalfa ..... 63 per cent
Arsenic ..... 06 per cent
Opium ..... 01 per cent
Fluid ..... 03 per cent
Tobacco ..... 27 per cent

"Bull" is quoted at two packages for 15 cents or 7 1/2 cents a 1/2 ounce, or \$1.20 a pound, or \$2400 a ton, and as .63 per cent of "Bull", or 1360 pounds is pure alfalfa, therefore the tobacco trust is getting \$1632 for the hay filling in "Bull" or \$2400 for every ton of alfalfa it unloads on the rubes in its "Genuine Bull."—Labor Clarion.

MEN
