## A. COREY

ACROSS FROM BANK AND TWO DOORS WEST—SEE THE WINDOWS—

Many men invest in mortgages or bonds at four per cent, and yet think their advertising does not pay unless they can see a hundred per cent return the next day.

The world is alive and on the alert for new thoughts and ideas, and the

man who takes the initiative and launches something new is sure to find a place in the front rank.

Advertising enables a store to do twice the business with the same overhead—isn't it cheap at three per cent of gross receipts?

### DEFINITION OF WHAT HORSEPOWER MEANS

The commonest term used in measuring power is the unit called horsepower.

In considering the power of a machine, however, we must not only state how much it can do, but how

long it takes to do it.

The expression horsepower was invented originally for the steam engine, and is measured easily and conveniently by requiring the engine to lift a given load a given distance in a given time. The result is in foot-pounds per second.

One horsepower is that power required to lift 550 pounds one foot in one second, or, conversely, one pound 550 feet in one second. If both the above are true, a horsepower will also lift 55 pounds 10 feet in one second.

The number of pounds lifted one foot in one second, then, divided by 550, will give the horsepower of the engine. If it is found on trial that a certain machine engine can lift 660,000 pounds, or 330 tons, one foot in one second, we know that its horsepower is 1,200.

Last Sunday was ("Flag Day," and only one flag was displayed within the city limits.

### LIBRARY NOTES

Beginning June 25, the Vernonia public library will be open every Tuesday evening from 6:30 until 8:30.

On Monday, Wednesday and Saturday afternoons, the hours are from 2:00 until 4:00. Please remember the hours.

The library is your library and it is open to everyone. Its success depends upon your patronage.

Return books promptly on or before the day that it is due, otherwise a fine of two cents will have to be charged for each day over due.

### Upper Nehalem

Mrs. Orah Smith went out to visit her sister at Metaker Saturday.

The Ohler Brothers went to Portland Saturday to get some repairs for their shingle mill.

Miss Sybal Ornduff went to Portland Friday to visit her sister Ella and to attend the Rose show.

Mrs. Thomas Anderson has gone to the coast for a few months visit

in the hopes that the coast air will benefit her health.

Dick Doughty had the misfortune to sprain his ankle recently and is now confined to his home for a few days.

Sam Turk was a Sunday visitor at

the Ornduff's home.

Mrs. Britton spent Saturday and Sunday with her parents, Mr. and Mrs. Bludsoe at Manning.

Mrs. Rainwater was a caller on Mrs. Ornduff one day last week spending the afternoon.

# Firestone BALLOONS

## Win Battle of Tires

At Indianapolis, May 30

Setting a New World Mark of 101.13 Miles

per hour—500 Miles without Tire Trouble

This gruelling test proves the outstanding superiority of Firestone Full-Size Gum-Dipped Balloons. With practically no change in cars and drivers from last year, and over the same rough, uneven brick track, laid sixteen years ago—Firestone Balloons racing under a blazing sun—beat last year's world record on thick-walled, high-pressure tires by a wide margin.

Of the 21 cars which started, only 10 finished "in the money"—every one on Firestone Balloons—Gum-Dipped by the extra Firestone process that adds extra

### THE FIRST TEN MONEY WINNERS

—all on Firestone Full-Size Gum-Dipped Balloons—

Position	Driver	Average Miles Per Hour
1	De Paolo	101.13
2	Lewis-Hill	100.82
3	Shaffer-Morton	100.18
4	Hartz	98.89
5	Milton	97.27
6	Duray	96.91
7	De Palma	96.85
8	Kreiss	95.32
9	Shattuc	95.74
10	Bordino	94.75

strength and flexibility, and eliminates internal friction and heat.

Call at our principal branches—inspect one of these Full-Size Balloons that travelled the 500-mile race without a change.

These wonderful Gum-Dipped Balloons that stood this terrific grind, will give you safety and comfort—and thousands of additional miles—on the worst country roads—in daily conflict with sharp stones and gravel, worn-out macadam and broken concrete. See nearest Firestone dealer today.
