### VIEW NEW ROAD NEAR VERNONIA

County Surveyor L. J. Von Orshoven and Road Viewers W. J. Fullerton and George Mills and Harold Spraguer, chairman, left this morning for Vernonia to view and lay out a road petitioned for by many residents of Vernonia. The proposed road will run northwesterly from Rose avenue in the south end of Vernonia and serve a number of settlers.—Mist.

### MOST IMPORTANT MATTER

We have been trying to improve the Eagle each week and a few have commented on it. There are a good many good readers that have overlooked the fact that they could help us to meet our obligations by paying the small subscription price. The Eagle is only \$2 per year by mail, many are taking it that are in error. Subscription should always be paid in advance. Can't the delinquent ones mail us the little check this week. We never like to make statements for subscriptions and many neglect it or forget it. Please.

Plans are drawn for the new Christian church, and work to start in the immediate future. The new building as planned will be very convenient in every way for a tabernacle of the kind wanted. The main auditorium will seat probably three hundred people; and class rooms will be so arranged that they can be opened into one large room or a hall. The new church building will be built on the lots the church recently purchased, known as the Ruben Hall home. The residence on the corner will be converted into a parsonage.

No place in Oregon are the opportunities for bargains greater than you see advertised in the Eagle this week and all weeks. Read the ads this week. In all of them are good trading suggestions; in some of them you will find prices better than we have read of in all our exchanges. It will pay you to look them over, then start on your shopping trip around town. When there are good buys you will read about them in the home paper. And this week they offer exceptions.

Mr. and Mrs. L. J. Magoon and two daughters motored up from Chico, California, last week on a visit with his sister Mrs. Mills and to also look over the old stamping ground that Mr. Magoon's father took up a homestead near Pittsburg in 1878 and spent his last days there. After a few days visit they will tour through Washington county going by Hillsboro and Forest Grove, where Mr. Magoons parent live, and after a short visit there they will return south to their home where Mr. Magoon is connected with the S.
