There's this much to be said in favor of the radio—it will carry a sermon as far as it will carry jazz!

What has become of the old-fashioned man who used to get at least three summers out of one straw hat?

ARE WE INDIFFERENT

DID YOU EVER STOP TO THINK

—By—
E. R. Waite, Secretary, Shawnee, Okla., Chamber of Commerce.

That indifference toward the home city should die.

That it should never be resurrected.

That there is no reason why it should be.

That citizens should never tolerate the idea of indifference.

That people who are indifferent to the home city are not needed there.

That indifferent people bar progress.

That they are nonprogressive.

That they hold back prosperity.

That it is a crying shame to have many of that class in a city.

That it takes a sudden shock to awake an indifferent person.

That often they can be made live ones.

That often it is done by selling the home city to them, making them realize what a wonderful city they live in.

That that knowledge often makes them a live, living, active part of the home city.

NO CITIZEN WELL-SOLD ON THE HOME CITY CAN BE INDIFFERENT TO ITS NEEDS AND AMBITIONS.

Copyright 1925

EAGLE FEATHERS

If you can't remember all the swimming rules you ever heard, try to remember that using common sense is the best of all of them.

What has become of the old fashioned Vernonia parents who used to hope for a girl baby on the grounds that girls gave less worry than boys?

Why wouldn't it be a good idea to sell Henry Ford the debts that our allies in the late war owe us?

Now comes the vacation season. And then will come the season for resting from our vacation.

Vernonia wives will tell you that about the only sweeping reform needed in the home is one that will get the cobwebs out of the corners.

Drive and your friends ride with you; walk and you stand a good chance of being run over by a stranger.

The short skirt and short hair seem to have come to stay. Now if we could get a shorter ballot and a shorter legislative term we'd believe the world was making some progress.

Almost every married man in Vernonia would feel crushed if they knew the kind of husbands their wives thought they were getting.

Now they say cock-roaches carry cancer germs. But we couldn't hate a cock-roach any more even if it didn't.

A tire made for the West. in the West!

IN A FEW MATTERS we Westerners gladly hand the palm to our Eastern friends. Building subways and skyscrapers—yes! Football—possibly. Climate—improbably. Pleasure auto driving—no!

We drive more months of the year . . . have greater scenic attractions. The “great open spaces” draw us farther from home. We know roads—and autos—and tires!

Which, in a way, accounts for the success of C-T-C tires. They are built in the West to meet Western conditions.

Eastern engineers came West to build them—but they make them for the West as well as in the West!

Today they are ranked as one of the three or four really fine tires in America. They are the largest-selling tires made in a Western-owned factory.

Motorists in the nine western states know what a tire should do. Their purchases show that C-T-C does it!

Come in and let us show you this remarkable tire.

“Quality will never be sacrificed to meet a price”

BETTER LAUNDERING MEANS GREATER JOY FROM LINENS

If you own good table linens you have a right to be particular how they are laundered. Also to feel proud of them, as there is nothing more beautiful than linens of good quality, properly laundered.

In our laundering of table linens, pure soft water, mild soap, churned into billowy suds, are our only cleansing agents. Frequent rinsings make them white as snow. No wringing. The water is thrown out by a whirling process which does not wear, tear nor squeeze the linens.

The ironing is done by gentle pressure between padded rolls, heated by steam. No scorching.

Results—snowy whiteness—satin smoothness—a pleasing richness of appearance.

Send your linens to us regularly and you'll get maximum joy and service from them.
