No body is perfect these days. Some of the ablest men in America couldn't name the six leading

hitters. Maybe the Riffs in Northern Africa are battling so savagely to keep the French from opening a charge account with them.

The news of your home town and county, the comings and goings, the

activities and doings of your friends and neighbors are chronicled briefly and interestingly in the home paper. The Eagle is always pleased to receive items of news from its readers. The contributions add greatly to make the paper interesting to a constantly growing number.

25 Years of Firestone Service

to Highway Transportation

25 years of anticipating the requirements of motorists—making manufacturing processes more certain—producing a higher standard of quality—25 years of unswerving adherence to the Firestone pledge, "Most Miles per Dollar"—summarizes Firestone's record of service to car owners.

Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants having floor area of over 60 acres—from a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices.

If you would like to know more of this wonderful record, ask your Firestone dealer to send you an illustrated folder.

With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.
