Dairy Cow Testing and Feeding Demonstration

SEGIS PIETERTJE PROSPECT—221946

World's Record Cow for Milk Production—37,381.4 Pounds in One Year. Born April 10, 1913. Died March 10, 1925. Owned and Developed by Carnation Milk Farms, Seattle, Washington

One of the features of the Dairy Section at the Pacific International Livestock Exposition, Portland, October 31st to Nov. 7th, will be a demonstration of testing for butterfat and cost accounting of feed of two groups of dairy cattle, using five average Oregon cows in one group. These cows will give about 4000 pounds of milk per year, which is about Oregon's standard and the standard of the United States, too.

In another group will be five purebred cows, featuring each of the five well-known breeds whose production will be from 8,000 to 13,000 pounds of milk per year. Purebred cattle have productions of more than this amount but it is thought to impress the public of the desirability of owning a string of well bred cows which shall give at least twice as much as the average Oregon cow—the cost of these cows being not greatly in excess of good grade cows and with a possibility, during times when calves are in demand, of making for their owners,

on top of their milk and cream check, some added money from their off-springs.

Prof. P. M. Brandt of Oregon Agriculture College has been requested to take charge of this exhibit which will also feature daily tests for butterfat by accredited testers of the state so that lay people may get a close-up of what testing really means. A chart for each animal will show exactly the amount of milk they produce at each milking and the exact amount of butterfat in their milk for that day. The amount of feed given to each of these animals in the various groups will also be tabulated, which will clearly show that, although an animal giving a good flow of milk takes more feed than a scrub animal, that the differences in this amount of feed do not correspond to the difference in production.

This exhibit will be housed prominently in the dairy barn and is expected to attract a great deal of attention.

city, without exemption for indebtedness; said taxes shall be collected under the General Laws of the State of Oregon.

This act shall take effect immediately upon its ratification by a majority of all of the votes cast in the City of Vernonia, at the special election therefor; and the Mayor of the said City of Vernonia, shall immediately by proclamation in a weekly newspaper published in Columbia County, Oregon, in one issue thereof proclaim that this act will be in effect from the date of the said election.

RESOLVED FURTHER, That this resolution for the proposed charter amendment to be submitted to the voters by the council be filed with the City Recorder for submission to the legal voters of the City of Vernonia for their adoption or rejection to be voted upon at a special election to be held as herein provided.

RESOLVED FURTHER, That the Council deems it necessary and advisable and does hereby call and make necessary provisions for the holding of a special election which shall be and is hereby called to be held on the 14th day of October, 1925, between the legal voting hours on said date, at the City Hall, in the City of Vernonia, Oregon, and that Chas. What Is A Good Cow Worth?

Mercedes, a registered cow born in 1910, delivered to her owners during her lifetime four daughters and eight sons. These offsprings netted \$1465 by direct sale. Butterfat produced by this cow, during the 13 years she was in the herd totaled 6500 pounds, producing an income of \$3250 from butterfat alone. Thus, this fine old dairy matron brought to her owners the sum of \$4715.

Not all cows are Mercedes, nor will they be. But there is no doubt, Mr. Dairyman, that keeping books, as was done in this case, proves which of your cows are unprofitable and can be sold. Then, as you fill their place with others, buy only the best stock. It will pay you—and Vernonia bank is willing to assist you in so doing within legitimate limits.

The Pacific International Livestock Exposition at Portland, October 31st to November 7th, will show you why better breeding is most profitable. Featured in this great Exposition are Dairy and Beef Cattle, Hogs, Sheep Goats, Horses; a Poultry Show, Industrial and Land Products Shows and the celebrated Horse Show.
