Human Battering Ram

The photograph shows Al Kreuz, who is popularly known as the "human battering ram" of the Pennsylvania grid machine. Much of the success of the Keystone team this season has been due to the efforts of Kreuz.

They met on the bridge at midnight. But they'll never meet again. For one was an east-bound heifer, and the other a west-bound train.

Velveteen Useful for Remodeling

The return of velveteen into the modes for children as well as grown-ups is a great advantage to thrifty mothers. Velveteen is liked better in combination with other materials than by itself and thus makes it particularly useful for remodeling frocks or coats. Little girls have a way of growing lengthwise at the rate of several inches a year and frocks become too short long before they are worn out. In this case a wide velveteen border set on the skirt, and bands added to the sleeves, as shown in the picture, prolong the usefulness of the frock and double its service.

Velveteen skirts with cloth over blouses or velveteen jackets with cloth skirts, are popular combinations for little girls and plaid fabrics are used with plain velveteen in many ways.

MILLION LIVES SAVED IN NEAR EAST

Believe Task Will be Completed in the Next Few Years.

That America will complete its work in the Near East in the next three or four years is the confident assertion of J. J. Handsaker, Northwest Regional Director of Near East Relief.

"For ten years we have been busy binding up the wounds left by the World War and the wars which followed the World War. A million lives have been saved and 200,000 children rescued and many of them given training for lives of future usefulness. Today there are some 35,000 children in America's care in the Near East. Their average age is about ten years, 2000 are under the age of four years. The Near East Relief keeps them only until they are sixteen. So carefully are they trained in various handicrafts that they are able to support themselves at that age, and although we try to follow them after they have left the orphanages to care for them if they are ill or to find them new jobs in case they are misfits, still our service practically ends when they are sixteen.

"Nearly all the money that America gives Near East Relief today is spent for children. Help given to adults takes the form of clothing and this is never furnished free if the refugees are able to work or can pay even a few cents for their garments. Money is spent on the children and as soon as they are in a position to care for themselves our work will cease.

"It cannot be repeated too often that the children are out of Turkey and are safe from the slaughter to which their parents were exposed. They are under friendly but impoverished governments in Armenia, Syria, Palestine and Greece, and the children's only hope, not only of life, but of training necessary for success in life, is in America. Suffering is intense in the refugee camps in Aleppo and Greece, although more than one million people have come back to soil support after being robbed and exiled from their ancestral homes in Turkey. There are no fewer than 10,000 exiles including mothers with little children, who are asking temporary aid this winter, and at a cost of only two cents per day per child could be given milk, but Near East Relief funds are exhausted in the care of the 35,000 children.

"It is the hope of the Near East Relief that Golden Rule Sunday, December 6th, will so bring home to the conscience of America the needs of these children that funds may be available, not only for the wants in the orphanages but that relief may be given to some, at least, of the others. "Near East Relief offices are at 613 Stock Exchange, Portland; 339 Burke Bldg., Seattle; and for the Golden Rule Campaign temporary offices have been opened at 301 Walker Bank Bld. Salt Lake City; 627 Park Bldg., Spokane; Bristol Hotel, Boise; and Y. M. C. A., Tacoma."

Representative Johnson Indorses Plan
Representative Albert Johnson, of Washington, in a letter to the Near East Relief, states that "the plan of training children under the care of the Association for their own peculiar conditions and fitting them for usefulness in their own land is, in my opinion, the correct plan."

In every Near East Relief orphanage the children are trained for self support at the age of sixteen. The girls to work on farms, to be nurses, teachers, rug makers, seamstresses, lace makers; the boys to be farmers, blacksmiths, carpenters, tinsmiths and shoemakers.

Trade among Friends

No matter what some folks say to the contrary, there certainly is a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—**FRIENDLY SERVICE**—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And **FRIENDLY SERVICE** is the sentimental reason why you find it very much to your advantage to trade with our advertisers—to buy where you feel at home, where your friends will see that you are well satisfied.
