The spectacular success of the Pontiac Six is as simple as A-B-C. When introduced it was a car such as no one had ever seen before—a six developed by General Motors, manufactured by Oakland and offering, at \$825, qualities of performance, comfort, beauty, economy and reliability entirely new in the field of low cost sixes. Yet revolutionary as it then was, the Pontiac Six is even farther in advance of its field today. For not only is it still the lowest priced six with Body by Fisher—not only is its power plant still the largest used in any six selling up to \$1000—but the fundamental rightness of its entire design has been proved by actual service in the hands of over 60,000 owners!

Pontiac Six, \$825 to \$975. Oakland Six, companion to Pontiac Six, \$1025 to \$1295. All prices at factory. Bodies by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.
