Normal Feet Are a Joy

To be able to stand, walk, dance, or enjoy vigorous sports without being troubled by tired or aching feet is a joy.

The Cause of Foot Troubles

Millions of foot sufferers can trace their troubles to improperly fitted shoes and hosiery. Over-strain is responsible for much foot misery.

The New Scientific Way

The new scientific way of correcting foot troubles due to weak arches is the Jung Arch Brace way. Here is a light, "super-lastik" band which is worn around the instep. It takes the strain of the weakened and over-strained muscles of the forward arch.

Jungs Arch Braces

Jung Arch Braces are made in two styles. Jung's "Wonder" Arch Brace which retails for \$1.00 per pair is for the average case of foot trouble and necessary for short feet. Jung's "Miracle" Arch Brace retailing for \$1.50 per pair, is extra wide and is for more severe cases, stout people or those having long or thick feet.
