have continued to manufacture it so long.

"With the new Ford we propose to continue in the light-car field which we created on the same basis of quantity production we have always worked, giving high quality, low price and constant service. We began work on this new model several years ago. In fact, the idea of a new car has been in my mind much longer than that. But the sale of the Model T continued at such a pace that there never seemed to be an opportunity to get the new car started. Even now the business is so brisk that we are up against the proposition of keeping the factory going on one model while we tool up for another. I am glad of this because it will not necessitate a total shut-down. Only a comparatively few men will be out at a time while their departments are being tooled up for the new product. At one time it looked as if 70,000 men might be laid off temporarily, but we have now scaled that down to less than 25,000 at a time. The lay off will be brief, because we need the men and we have no time to waste.

"At present I can only say this about the new model—it has speed, style, flexibility and control in traffic. There is nothing quite like it in quality and price. The new car will cost more to manufacture, but will be more economical to operate.

Late Local News

Mr. and Mrs. Geo. VanAlstine of McMinnville were in Vernonia on Tuesday of last week looking after the remodeling of their house. Mr. and Mrs. Geo. VanAlstine of McMinnville called on Mr. and Mrs. Wilburn Hall and Mr. and Mrs. Dent on Tuesday of last week.

Dr. Wight accompanied her daughter to Monmouth normal college where she is enrolled for the present term. Miss Virginia has a record of three years in high school without being absent or tardy, and exempted from examinations for high grades, this has given her an opening for the scholarship to Reed College which her teachers and friends hope she wins.

Shower for Brides-Elect

A miscellaneous shower was given in honor of Misses Clara and Wilma Rosa, June brides-elect, at the home of their sister, Mrs. Roy Brady, Friday. Many beautiful presents were received by both brides-elect. Mrs. B. Wymore and daughter, Mrs. John Miller and children, Mrs. Harry Woodruff, Mrs. John Rosa, Mrs. Dave Pankrat, Mrs. Mary Ohler, Mrs. D. B. Reasner, Mrs. McDonald, Mrs. Frank Allen, Miss Erma Brady and Mrs. Roy Brady and children. Light refreshments were served.

Pioneers To Meet

The Nehalem Valley Pioneers Union, will hold their annual meeting Saturday, June 11, at the Birkenfeld school gymnasium, beginning at 10 a. m. Vernonia folk are urged to attend this meeting and renew old acquaintances.

Dr. Luzader, Eyesight Specialist

Here June 6 and 7.
All those who suffer from headache, or have any vision troubles, should see a specialist at once. Dr. Luzader will make his next visit in Vernonia on Monday and Tuesday, June 6, 7 where he can be consulted about eye troubles. Please make appointment with Mr. Kullander the Jeweler to avoid waiting.

Police Notes

"Tige" Johnson, F. Coleman and H. Robbins, arrested for drunkenness Saturday night, were fined \$30 each on their plea of guilty before Judge Reasner Tuesday.

B. Arneson, arrested by Constable Kelly Monday night charged with being drunk and having liquor in his possession upon a public highway, plead guilty before Justice of the Peace Hill, and was fined \$75 and costs. Deputy Constable Hutchison took Arneson to the county jail at St. Helens early yesterday morning.

Notice

There are a number of persons under 18 years of age who have been disregarding the curfew law here of late and this will not be allowed in the future. If you are sent home from a dance hall or other place it is your fault. You must have either a parent or guardian accompany you.
W. J. Kelly, City Marshal.

Legion Dance Well Attended

More than 120 couples attended the second American Legion dance in the new hall Saturday night. Some difficulty was experienced with the floor, due to its having been oiled too soon before the dance. Clarence Nance says it is now in excellent shape and he assures everyone a smooth floor for the hop Saturday night, June 4.

Christian Church

While we had a very large attendance in the Bible school and church service last Sunday, we have very good reason to look for a still better attendance this coming Sunday.

We are going to try to meet the 175 mark and this means that "Each one counts one." If you are absent it may mean 174.

The pastor will have charge of both services next Sunday and will plan to bring a helpful message to all. Come and receive a welcome and worship with us.

EVANGELICAL CHURCH

The sermon subjects of Rev. G. W. Plumer at the Evangelical church next Sunday will be at 11 a. m. "The Need of Present Day Pentecost." At 8 p. m. "The Wages of Sin and the Gift of God."

Please note that the children's day program will be in the evening of June 19, and the Sunday school picnic will be one day in the week following June 19.

Athletic Club Disbands for Summer

Tuesday night the ladies athletic club held an informal party as the final meeting indoors for a time. During the summer months they will conduct hikes, picnics, etc., every week. After the usual exercises, the class played several snappy games of volley ball followed by a variety of other games, and when all were tired they sat down to a delightful luncheon. During the final business meeting all accounts were ordered paid.

A vote of thanks was voted the May program committee for the excellent program put on at their party. The first of the out-door sessions will be Tuesday next when the class will meet at the O.-A. office at 1:00 p. m. for a hike to Pebble creek.

Medford reports 12,000 auto tourists already this year.

Best Flowers Are Grown Under Spray Protection

To produce the largest number of desirable flowers sprays carefully and intelligently used are essential in Oregon, says Don C. Mote, entomologist of the experiment station, even though insects pests of the rose are not especially serious.

Among the most pests of leaf, bud and growing tips of the rose are plant lice, or aphids. Lice are small soft bodied green or reddish green insects which cluster on under surface of leaves, growing tips, or the rose canes during early summer. When in small numbers they are controlled by crushing, or brushing off the plant. When present abundantly, nicotine sulfate spray or nicotine dust controls them.

The rose leaf-hopper is often more injurious than plant lice. It is on under surfaces of leaves, a small light yellowish or yellowish green insect. The leaf-hopper is smaller and more active than plant lice and when mature has white wings. In heavy infestations leaves turn yellow and become thickly spotted with whitish dots. Control

Oregon exported \$83,532,449 in merchandise, during 1926.

The man who watches a fire is paying handsomely for the spectacle, because the costs are distributed to men and industries which pay insurance premiums, and ultimately to every consumer of goods.

To reduce automobile accidents, a concentrated effort must be made for adoption of proper safety legislation and enforcement.

Races Evince Marked Differences in Blood

Racial relationships go a good deal deeper than the facial kind. The relations of the races are literally a blood relationship, for the composition of an American Indian's blood is not like that of a white man or a negro, and there are even differences between the blood of certain European nations.

If a biologist prepares a serum from the blood of one animal and injects it into the veins of an animal of a different species, the serum is immediately precipitated—in other words, thrown out. This is accomplished by things called antibodies about which nobody knows very much.

There are four "serum groups," and they have a definite relation to the various races of men—and monkeys. Chimpanzees have one kind of substance, orang-utans have two, some American monkeys have a kind different from the chimpanzees, and still other monkeys have neither. In northern and central Europe there is one type of blood, further east quite another kind, and still another in India. But the various characteristics have an odd way of appearing in mixtures—showing that the various races of mankind have been mating with one another for a long, long time.—Prof. M. Munro Fox in the Forum.

Attacking Europe

Courtland Bleeker, the New York clubman, said on his return from Europe:

"Europe is changed. It's the land of the profiteer now. The European profiteer, when he does you out of six dollars for a bad lobster or eight dollars for a near-silk necktie, will tell you he's losing money, but he won't expect you to believe him. Why in his pride of wealth he won't want you to believe him.

"The European profiteer reminds me somehow of Liza Jane Green. 'Ah sut'ny was insulted last week,' said Liza Jane. 'When Ah paid back Miss Lil White dat half-dollar wot Ah owed her, she done had de nerve to bile it. Yah, yah, yah! She's down wiv lead poisonin' now.'"

Kissing Under Mistletoe

This custom originated among the early Scandinavians. It is supposed to be associated in some way with the killing of Balder with an arrow given to the blind Hoder by Loki, the god of mischief. Balder was restored to life and the mistletoe was placed under the care of Friga, and was never again to be an instrument of evil. The kiss of love and peace under the mistletoe is supposed to be an assurance that it will never again be an instrument of mischief.—Pathfinder Magazine.

measures as used for plant lice destroys them.

The appearance of skeletonized foliage in late May and June is usually an indication of rose slug, a light green slug-like worm about a third of an inch long, which feeds on under surfaces of leaves. It is controlled with arsenate of lead sprays.

The hose scale infests the canes of the plant. It is white and circular in shape with small raised yellowish centers. It attaches itself to the bark and obtains its food by sucking plant juices. Time to control this type of scale is during the dormant season of the rose. Nicotine sulfate sprays during growing season will aid in checking its increase.

San Jose and cottony scale attack the rose. All scale insects are controlled in the dormant season with lime sulfur solution containing one part of commercial lime sulfur to 12 parts of water.

Oil Bootlegging Is Being Practiced

The Oregon State Motor association calls attention to the precedent recently established in New

York State regarding oil bootlegging or the substitution of lubricating oils.

The New York courts recently sentenced a dealer in oils to ninety days in the city jail for substitution of lubricating oil.

Imprisonment instead of fines has a far greater moral effect, the Motor Association points out, and the sentence has had a very beneficial effect on the New York situation.

Notice to Auto Owners

Under the new motor vehicle laws which went into effect May 28, Bridge street in Vernonia becomes a main artery and all motorists approaching from any side street are required to come to a stop before continuing on their way. All autos coming from the right have the right-of-way at intersections.

W. J. Kelly, City Marshal.

Auxiliary Meeting Changed.

The American Legion Auxiliary will meet in the Legion home Monday night, June 6. A large attendance is requested.
