

NOTICE OF CALL OF BONDS

Notice is hereby given to the holders of the following bonds of the City of Vernonia, Columbia County Oregon;

Bonds No. 6 and 7 of sewer improvement bonds, dated January 1, 1925, said bonds being in denomination of \$500 each. All of the above bonds being redeemable at the option of said city on Jan., 1, 1926. That pursuant to said option, said bonds will be redeemed within 30 days from the date of this notice, to-wit: On the First day of July 1927, upon presentation to the fiscal agency of Oregon, in New York City, to-wit: The National Park Bank.

In case the holders of said bonds fail to present same at the time and place mentioned herein for the redemption thereof, then the interest thereon shall cease and the agency aforesaid will thereafter pay only the amount of such bond and the interest accrued thereon up to the said first day of July 1927.

Dated at Vernonia, Oregon on this 1st day of June 1927.
J. C. Lindley, Treasurer
City of Vernonia, Ore.

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF COLUMBIA

JESSIE EDITH CAUGHRON, Plaintiff,
vs
FRED CAUGHRON, Defendant.

To Fred Caugron, the above named defendant:
In the name of the State of Oregon: You are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before Saturday the 2nd day of July, 1927, said date being more than six weeks after the date of the first publication of his summons herein; and if you fail to appear and answer or otherwise plead to plaintiff's said complaint, for want thereof the plaintiff will apply to the court for the relief prayed for in her complaint, to-wit, for a decree forever dissolving the bonds of matrimony now existing between plaintiff and defendant; requiring defendant to pay all necessary suit

money and costs in this proceeding, and for such other and further relief as to the Court may seem equitable and proper:
This summons is served upon you by publication for six consecutive weeks in The Vernonia Eagle, in pursuance of an order of Honorable J. A. Eakin, Judge of the Court for Columbia County, Oregon, made and entered on the 18th day of May, 1927.

Date of first publication Thursday, May 19, 1927. Date of last publication Thursday, June 30, 1927.
DILLARD & DILLARD, Attorneys for plaintiff.
Residence and Post office address, St. Helens, Oregon.

SUMMONS

In the Circuit Court for the State of Oregon for the County of Columbia

Katarzyna Jablonski, Plaintiff,
vs
Adam Jablonski, Defendant.

To Adam Jablonski, above named defendant:
In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above suit on or before six weeks from the date of the first publication of this summons, to wit, six weeks from June 2, 1927, and if you fail to so appear and answer said complaint, for want thereof the plaintiff will apply to the court for the relief demanded in plaintiff's complaint to wit:

For a decree of absolute divorce dissolving the bonds of matrimony heretofore existing between plaintiff and defendant, awarding plaintiff all of the real property owned by plaintiff and defendant in Washington county, Oregon, for the sum of Nine-Hundred and Seventy-five dollars, and for such other and further relief as to the court may seem meet and equitable.

This summons is served upon you by publication for six consecutive weeks in the Vernonia Eagle, in pursuance of an order of Hon. John Philip, Judge of the County Court, of Columbia County, Oregon, made and entered on the 31st day of May, 1927, in the absence of Circuit Judge of said county.
Lester Sheeley, Attorney for Plaintiff.
Residence and postoffice address, Vernonia, Oregon.
Date of first publication June 2nd, 1927. Date of last publication 14th day of July, 1927.

NOTICE

On July 2nd, 1927, and up to the hour of 7:30 o'clock p. m., sealed bids will be received for the transportation of students to and from Union High School Number One, of Vernonia, Oregon for the school year of 1927, 1928, for the Upper River Bus Line, bidders must name the driver, no light Truck to be used, truck must be in first class condition and so maintained as long as it is used for the transportation of students. A certified check made payable to Mrs. Charles Malmsten, Clerk, for an amount equal to 5 per cent of the amount so bid must be deposited with the bid, and no bid shall be considered unless such check is enclosed therewith. Should the successful bidder to whom the contract is awarded fail to execute the same within ten days from the date of notification of such award, such check shall be forfeited to Union High School District No. 1, and the same shall be the property of the district. All other checks will be returned to the unsuccessful bidders who submitted the same. Bids shall be sealed and marked "Bids for up River Bus Line" and addressed to Mrs. Charles Malmsten Clerk. The Board reserves the right to reject any or all bids.
Dated and first published, June 9th, 1927. 443
Mrs. Charles Malmsten, Clerk.

Annual School Meeting

Notice is hereby given to the legal voters of school district No. 47 of Columbia County, State of Oregon, that a special school meeting of said district will be held at Washington School, on the 20th day of June 1927, at 2 o'clock in the afternoon, for the following objects: To elect a board member for 3 year term and a clerk for 1 year.
Dated this 1st day of June, 1927.
ATTEST: Lillian Brown, District Clerk. O. S. Poynter, Chairman Board of Directors. 442

NOTICE TO CONTRACTORS

St. Helens, Oregon, June 3, 1927
Sealed proposals, addressed to the county court of Columbia county, Oregon, at St. Helens, Oregon, and endorsed "Proposal for doing the following work in Columbia county, to-wit: The construction of a bridge over the Nehalem river in section 13, Tp. 4 N. R. 5 W.

of W. J. F. in Columbia county, Oregon, will be received by said county court until 2 o'clock P.M., July 8, 1927, and not thereafter, and at that time will be publicly opened and read.

All proposals must be made upon blank forms, to be obtained from the roadmaster, at his office in St. Helens, Oregon. Must give prices proposed, both in writing and in figures, and must be signed by the bidder, with his address.

Plans and specifications are on file in the office of roadmaster, St. Helens, Oregon, and Daily Journal of Commerce, Portland, Oregon, and may be examined in the office of the county clerk.

Each bidder shall deposit, with his bid, a certified check for an amount of at least five (5) per cent of his bid, payable to the county clerk, which shall be forfeited to the county in case the award is made to him, and he shall neglect, fail or refuse, for a period of five days after such award is made, to enter into a contract and file the required bond.

The right is reserved to reject any and all bids.

John Philip, County Judge,
J. N. Miller, Commissioner,
T. B. Mills, Commissioner,
G. G. Hall, Roadmaster,
J. W. Hunt, County Clerk.

FARM MARKET REVIEW

Wool—There was a fair volume of business done last week with worster mill buyers leading in activity. Prices remained steady with a tendency to harden.

Mohair—The market for raw hair remained dull. There is a tendency to slow up on consumption of foreign mohair evidenced by reduced withdrawals from bond. Custom records show total exports of foreign mohair from the Massachusetts custom district since January 1, of 100,000 pounds.

Grain—Prices of feed grains made further sharp advances last week as a result of unfavorable weather conditions. Barley as strong on the coast wheat English markets. Pacific coast wheat markets continued firm. New milling wheat at San Francisco for June shipment was quoted at \$2.40 to \$2.50 per hundred pounds.

Butter—Rather firm markets at San Francisco but only steady at beat in the east characterized last week's trade. Receipts have been heavy enough to permit a heavy into storage movement and stocks are accumulating. There is some sentiment however that lower prices may not be seen during the present storage season.

Livestock—The cattle market was barely steady last week, with in-between kinds showing most weakness. Hog markets just about broke even with the previous week. Lamb markets were strong in the east. The Portland market suffered from an over-supply of livestock.

"Inside" Information

A good-sized boy of about 14 requires about 2700 calories of food per day, while his 8 year old brother needs only about 1800 calories, and his 5 year old sister about 1400. Since he is still growing, milk is particularly valuable for the boy in his teens. At least a pint a day is desirable. This may be used in vegetable and milk soups, in cocoa, bread puddings and other ways, or taken as a beverage. The boy in his teens also needs eggs, cooked cereals for breakfast, breads made from whole-grain flours, plenty of fruit, all kinds of vegetables, some of them served raw, a limited quantity of meat, and sweets only at the end of meals.

Do you budget your time as well as your money? Try making a list of all the regular daily activities, and then another list of those that come once a week or at other intervals. Estimate the time all these asks usually require. Distribute the jobs that do not have to be done every day in such a way that the week will run most smoothly, and so that no day will be too heavy. Allow for a reasonable amount of leisure for each day, time for irregular activities and interruptions, time for rest. Time yourself at your tasks and make a sort of game of beating your own record, always with the subconscious thought that you will then have more free time for pleasant things.

Fruit gelatin deserts take only a few minutes to prepare. The proportion is one quart of liquid to one envelope or ounce of gelatin. The gelatin is usually softened in about a half cup of cold water or fruit juice. If sugar is needed, and as most fruit gelatins are improved by adding the juice of half a lemon some sugar will be necessary, put it into one cup of water or less and bring it to the boiling point. The amount of sugar depends on the acidity of the fruit

juice. Half to three fourths of a cup is often needed. Add the softened gelatin to the hot sirup, then add 2 1/4 cups of uncooked fruit juice, orange or grape, or pineapple, whatever you have. Stir thoroughly and strain into molds. In this way the flavor of the uncooked fruit juice is retained, and its vitamins are not destroyed by heating. In warm weather reduce the amount of added water somewhat.

Poultry Reminders

(From O.A.C. Experiment Station)
Green feed for poultry is cut fine in a feed-cutter and fed in a green feed hopper. In a hopper it stays together and remains succulent much longer than when thrown upon the floor or into the yards and scattered around by the fowls.

Poultrymeat is canned by many Oregon housewives and with simple methods a good tasting meat preserve is made. By the following method a 2-pound dressed fowl gives about 1 pint of solid meat and 1 pint of solid meat and 1 pint of jelly.

The raw meat is taken off the bones and cut up so it will go into the jars easily. It is packed tightly in cleaned, tested, glass jars to 1 inch of the top. A half teaspoonful of salt and seasoning is added, but no water. Covers with new rubbers are placed lightly on the jars. Then the jars are put into a tightly covered container, like a pressure canner or steamcooker, but a washboiler or sapbucket will also do. The water is heated to boiling point and the meat sterilized 4 to 5 hours. Before taking the cans from the sterilizer they are tightly sealed. When these jars are stored in a dark cool place the meat remains good for a long time.

Radioed From USDA

On a general farm where there is plenty of range to provide ideal growing conditions, and where there is a home-grown supply of feed, the growing of capons is a sound and profitable side-line. The capons will not only provide fresh meat of the best quality for the home table, but the surplus can be sold in the local market at good prices.

Americans are drinking more milk. That is the word from the department of agriculture which places the annual per capita consumption of milk at 55.3 gallons in 1926; 54.75 gallons in 1925; and 43 gallons in 1920. Farmers are drinking more milk than city people, the department report also shows. The average daily per capita consumption of milk and cream by farmers in 1926 was 1.47 pints, as against slightly less than one pint for city folks. The total consumption of milk and cream in the United States in 1926 was nearly 56 1/2 billion pounds, the report shows.

Effective spraying of tomatoes can be done only with a high-pressure power or traction outfit, says the United States department of agriculture. Spraying should begin when the first signs of blight appear and be carried on at intervals of 10 days until five applications are made.

A recent study by the United States department of agriculture of a forest area in northern California badly infested with the western pine beetle revealed that in the last two years the insect has killed nearly four times as many trees in a burned-over tract as in the adjacent unburned forest.

The tomato, for many years after its introduction into the United States in about 1800, was regarded generally as an ornamental plant. Owing to its relation to nightshade it was considered poisonous. After this prejudice was broken down the use of tomatoes became general.

Pastures for hogs must be supplemented with grain for the most

satisfactory results. An acre will ordinarily furnish pasture for from 5 to 15 hogs averaging 100 pounds. A good plan is to have two pastures for each lot of hogs, so that by alternating them the pastures may be important that the marks be made on a conspicuous part of the animal so that they may be seen readily without unduly disturbing the animals. Heavy shrinkage often results because of unnecessary disturbance to determine identity of ownership when marks are indistinct. Every effort should be made to mark all animals in one shipment on the same side.

Chautauqua County, New York, is the first county in the country to embark upon a forestry program for the farm woods and idle lands, with a special forest officer in charge. The aim is to make forestry effective throughout the county. This will include the ultimate reforestation approximately 150,000 acres of idle land and the effective management of about 120,000 acres of woodland in farms.

When a fowl becomes sick it is usually best to kill it, as it may be affected by a contagious disease which, before it is recognized, may spread. Furthermore, if the poultry

owner attempts to treat such birds there is great danger of carrying infection from the sick to the healthy in handling or feeding. If a disease becomes established in the flock, however, some kind of treatment is advisable if possible. In case of treatment it is important that the sick birds be separated from the healthy ones as soon as the symptoms become noticeable.

Clean cultivation supplemented by some type of cover crop is a standard method of soil management in orchards. The breaking of the soil ordinarily will need to be followed throughout the growing season by frequent cultivation. Soils containing considerable clay and easily packed by frequent heavy rains require tilling more often than where packing does not occur.

It has been said that horses eat when they are idle but, according to John O. Williams, in charge of horse and mule investigations, U. S. department of agriculture it may also be said that "they do not eat while they work." Surveys made by the department show that horses and mules furnish the cheapest power for most drawbar operations on the farm.
