We have recently sent loaves of Mother's bread to the biggest mill-in company on the Pacific coast and to the American institute of Baking at Chicago for scoring. Both loaves scored nearly 100% perfect and since the Judges were impartial and about 14 points are taken into consideration you must realize that the bread was extra fine to score so high. The loaves scored were just two taken from our daily baking and you can be assured that Mother's bread which you buy tomorrow or next week or next month will be just as good as the two loaves we mention as we do take pride in making good bread and we are ever alert to keep it so. Ask for Mother's bread and know that you are getting the best.—adv.
