## THRIFT WEEK JANUARY 17-23

Sponsored by the Y.M.C.A. and Oregon Bankers' Association.

In co-operation with the National Thrift committee, of which John A. Goodell, for many years a resident of Oregon, is executive secretary with headquarters in New York. The Y.M.C.A. and Oregon Bankers' association are sponsoring thrift week, January 17-23. It always begins on the anniversary of Benjamin Franklin's birth, he having been the originator of thrift.

The thrift program embraces ten rules for a successful and happy life: Work and earn. Make a budget. Record expenditures. Have a bank account. Carry life insurance. Own your home. Make a will. Invest in safe securities. Pay bills promptly. Share with others. Each of these is featured during the week. Practically every city and town in Oregon is participating.

### THRIFT WEEK PROCLAMATION

By GOVERNOR I. L. PATTERSON

At this time when the pressure of population is beginning to make inroads upon the traditional abundance of our natural resources, it is desirable that we should pause to give thought to the uses of thrift, which go far beyond the saving of money. Thrift implies a wise and constructive employment of all possessions, both private and public, in order that they may yield the largest and most desirable returns. New aspects of the importance of personal and public thrift appear daily, and we have abundant evidence of waste and disaster which might have been averted by intelligent foresight and careful planning.

ANY ONE CAN SAVE  
By EDGAR H. SENSENICH, President of The West Coast National Bank of Portland  
"Time and again we are asked—Is it possible for a man working for small wages to save anything when all his earnings are consumed in the effort to make a living? And yet, it is true that many thrifty people are doing that very thing by denying themselves seeming necessities NOW in order that they may be able to provide for the certain necessities of TOMORROW. It is an inspiration to study the successful effort of those, who with meager earnings manage gradually to build up a fund as a guaranty against future needs and as a protective inheritance for those who may be left without the productive hand."

### "SAVE AND BE HAPPY"

By GUY W. TALBOT, President, Portland Gas & Coke Company of Portland  
Save and be happy. Get the thrift habit. You can get it only by consistent saving. It will help make your other habits good. You will not only make for your economic security, but you will build character as well. In augmenting and conserving your resources you will create for yourself a greater sense of responsibility. You will be careful and wise about how you spend. You will avoid the debilitating effects of wasteful and wanton expenditure of your income. Your time in labor and leisure will be more happily and profitably employed.

THRIFT IS COMMON SENSE  
By FRANK L. SHULL, President Portland Chamber of Commerce  
I believe in thrift because it stands for common sense. The opposite of thrift is waste and waste is always want. The inevitable result of waste is a later lack of necessary things. On the other hand, the inevitable result of thrift is independence and plenty. It would be difficult to name a person in need who practiced thrift, and on the other hand, those who are in comfort in later years have usually practiced thrift. Thrift is a habit and every effort to get people to practice thrift is a public service.

## New Home Purchased by Woodmen of the World

Vernonia Camp 655, Woodmen of the World, held one of the most successful meetings of the season Monday night, when a large majority of its membership was present. The building committee recommended buying the lot owned by Mr. Stankey upon which now stands a building 40x80 feet, which is the exact size desired.

A recess was declared during the meeting for the members to inspect the structure, which is directly across the street from the K. P. hall. Upon their return the vote for its purchase was unanimous. The building stands upon large concrete blocks with a frame solid enough for a warehouse.

The building stands off the ground in places five to six feet, which would leave but little excavating in case it was desired to have a basement. The lodge elected officers and five directors to have charge of putting the building in shape for occupancy. Work will be started as soon as the weather will permit.

Ray Charlesworth and another member of the band made a trip to Portland Tuesday, where they purchased some instruments. The Camp series went to Portland a few days ago to purchase copies of plays to be presented in the future.

Although 27 candidates are ready for initiation, it is thought most of them will be kept waiting until the Salem meeting February 24.

Best sheepmen allow the ewes to graze as long as possible during the winter months in western Oregon, according to the experiment station. Every winter there is or-

dinarly a period of from five to 10 days, however, when the grass is not available. For a short period the sheep are then fed hay to supplement the pasture, making the ewes much stronger at lambing time and also preventing a break in the wool.
