 In order that the Vernonia Bakery may better serve you and produce an even higher quality of cakes and sweet rolls than in the past they have just installed at considerable expense two new pieces of machinery. One is a giant Hobart cake machine which is capable of mixing large batches of cakes and rolls. The other machine is a roll divider which cuts at one

time 36 pieces of dough of exactly the same size and weight. This machine makes it possible to have buns, parker house rolls and the like of uniform size. We have incurred the expense of installing these machines for just one reason at that—that we may give you more uniform and higher quality products.—adv.
 The hard time leap year dance held last Wednesday in the Legion hall was a decided success, especially in the opinion of the ladies who made the most of the opportunity of choosing their own partners.
 In the bakers' gold medal radio contest which was conducted by the Washburn-Crosby Flour Co. last fall thousands upon thousands of women from all parts of the United States competed for the many prizes offered. It will be of interest to the housewives of Vernonia to know that 86% of the contestants gave as their reason for buying bakery goods that it saved them time and energy—it released them from drudgery for more important duties or pleasures. 83% stated that it was actually more economical considering labor, materials, baking failures and waste from baking more than is needed. Now, if from these many thousands of women, 86% found

that it saved time and energy and 83% found that it actually saved them cash why would this not apply likewise to you? In buying from the Vernonia Bakery you can be assured of quality goods; the same (and in many cases better) ingredients are used as you would use in your own home; you come in today and buy just what you need; tomorrow you do the same thing; there is no waste, no baking failures; time which would be spent over a hot stove you use for recreation, social activities or with your children. Is not all this worth while? There is only one moral to all this—buy from your baker who is here to help you solve your daily food problem and thus enable you to enjoy life the more.—adv.
 L. C. Sherman of Portland has made arrangements to open a studio here for the study of music at the home of Mrs. Ethel Ray, where he will conduct lessons Tuesday of each week. He is a member of the faculty of the Portland Conservatory of Music, and plays regularly with Brereton's orchestra.
 For 5 years Dr. Luzader, eyesight specialist, has been making monthly visits to Vernonia. His next will be April 2 and 3, office at Kullander's. Have your eyes examined.—adv.
