Merchants Credit Assn. Weekly News
 By Lucile Lindsay
 We Are Not Crystal Seers That We Can Read Minds
 The above is not meant to be sarcastic, but it is a fact. There are duties of each member in the association accordingly, in proportion to the way each member assumes and carries out those duties, will the association grow in

value to him, as well as the balance of the membership. Have you been lax in the following duties?
 First: When you call for a report do you give the office the full name, address, where employed, married, came from, or do you expect us to look at a crystal and guess at these things?
 The above information is not hard to get at the time the sale is made, but it is very hard to get afterwards.
 If a stranger wanted to borrow \$10 from you, he would have to answer all these questions and more too. Your merchandise is the same as money and you are entitled to ask and expect your customer to answer all the above questions.
 Second: When you shut off a customer's credit do you notify the office or are we supposed to get out the crystal again?
 Third: Do you notify the office and give them all the information you get on every new customer you open an account with? It is your duty to do this even though you do not want a report. We sincerely request that you get a report on every person before opening an account.
 These are the three main duties of every member. Don't forget that you are the association and that it is entirely in your hands to make or break the Credit Association. It will grow in proportion to what you put in and take out.
