Spanish Title

Since 1388 the heir-apparent to the crown of Castille, and later to the crown of the Spains, has been known as the prince or princess of Asturias.

Time was when an unmarried woman kept very quiet about her state. Now she proclaims it aloud and stoutly.—Woman's Home Companion.

Home Hunting Prospective home buyers usually find a perfect small home, but the people who own it always seem to like it, too.—The Country Home.

Fame Soon a Memory The splendors that belong unto the fame of earth are but a wind that in the same direction lasts not long.—Dante.

Switzerland First The Scientific American says that Switzerland leads in the number of people who possess the inventive turn of mind.

Earth's "Skin" Thick The thickness of the earth's crust is variously computed to be 10, 20 or perhaps as much as 50 miles.

Sturdy Plowmen The plowmen of the United States each year turn over 2,000,000,000 tons of earth.—The Country Home.

Doc Wise

J. F. JOHNSON Birkenfeld, Oregon FOR COUNTY COMMISSIONER

I am a candidate for the Republican nomination for county commissioner at the coming primary election.

I have been a resident of Oregon all my life and lived in Columbia county the past 25 years.

I believe I am familiar with the county problems and if nominated and elected, I will faithfully serve every section of the county, and work for the interest of the taxpayer. (Paid adv. by J. F. Johnson)

Work of the Lungs From twenty to thirty cubic inches of air are normally changed with each act of breathing. Nearly 400 cubic feet of air passes through the lungs of an adult each day.

Unchanged by Time An old lady, while on a vacation in the country, hearing somebody say the mails were irregular, said: "It was so in my young days—no trusting any of 'em."

Know the "Muckawiss"? The English named the whippoorwill from the fanciful assimilation of its cry to those words, but the Indians called the bird the "muckawiss."

Old Crochet Work Bands of crochet work made in Peru earlier than 200 A. D. are among the rare textiles owned by the Metropolitan Museum of Art of New York.

Guidance Provided We need only obey. There is guidance for each of us, and by lowly listening we shall hear the right word.—Emerson.

Region of Blizzards The most destructive blizzards occur in the plains region from North Dakota to Kansas and eastward to Ohio.

Many Muscles in Body In the human body there are more than 500 muscles, varying in length from a small fraction of an inch to two feet.

Make Friend of Duty Duty only frowns when you flee from it; follow it and it smiles upon you.—Elizabeth, queen of Rumania.

So Why Borrow It? Another thing about borrowing trouble—it puts you under obligation to yourself.—Toledo Blade.

A Candle in the Window For the law made nothing perfect, but the bringing in of a better hope did.—Hebrews 7:19
