

**Camp . . .
McGregor**

Jonas Larson left Saturday for Cathlamet, Washington, where he resumed work at the Crown-Willamette camp Monday.

Miss Olga Sutherland returned to her home in Portland Saturday after spending four weeks of her vacation here with her aunt, Mrs. Jonas Larson, and family.

Friends were grieved to hear of the loss of the baby born to Mr. and Mrs. R. B. Fletcher in Portland last Sunday.

Mrs. Wilfred DeClusion and her mother of Portland are in camp this week picking wild blackberries. Mr. DeClusion was a visitor here last Sunday returning in the evening to his work at Cathlamet, Washington, where he is employed by the Crown-Willamette company.

Mrs. C. E. Westlin is in receipt of a letter from her husband who went to work as a machinist for the Crown-Willamette company at Cathlamet Monday. He is pleased with conditions there and it is probable that the family will remove to that place in the near future.

L. M. White, who is confined in a Portland hospital, having recently undergone an operation, is reported as getting along nicely.

**FOWL POX VIRUS IS
CHEAP PROTECTION
Flock Owners Warned of Danger
To Chickens in Neglect
of Inoculation**

"If there has ever been a case of chicken pox on your place, you can't afford not to vaccinate this year."

This is the advice of E. M. Dickinson, assistant poultry pathologist at Oregon State college, is giving Oregon poultrymen, many of whom have been wondering whether, with the present low price of eggs, they should make this additional outlay.

With poultry priced as they are, maximum production from every bird is absolutely essential if producers are to stay in business, Dickinson says. Chicken pox in the flock would cause a disastrous slump in production. Vaccination with the new live virus developed at the Oregon Experiment station two years ago is practically absolute guarantee of immunity from the disease, and

to forego such insurance is false economy.

The best time to vaccinate, according to Dickinson, is when birds are from three and a half to four months of age. Ordinarily this would mean that the peak of vaccinating activity in the state would come during July, but many flocks are later than usual this year.

Poultrymen who have attended the poultry vaccination schools at the college during 1929 and 1930, who passed the examination and have permits from the State Livestock Sanitary board are permitted to obtain virus from the college and vaccinate their own flocks, says Dickinson. Others may use the services of any practicing veterinarian.

More than 100,000 birds were vaccinated for chicken pox with the new virus obtained from the college last year, with excellent results, records show.

In cases where chicken pox has never occurred on a poultry farm, vaccination is not advised, as it would get the virus on the place and make vaccination imperative in future years.

**Riverview
Mrs. Lee Hall**

Mr. and Mrs. Tom Mahoney and son Pat of Portland were the guests of Mrs. Mahoney's grandmother, Mrs. Sarah Spencer, Sunday.

Mrs. Ella Cline and sons Gordon and Donald and Lillian Hall visited the former's parents, Mr. and Mrs. Burnham, at Clatskanie Friday of last week.

C. Bruce returned home after a ten days fishing trip on the McKenzie river.

Harvard Malmsten, who is attending C. M. T. C. at Vancouver, was home over the week end.

Miss Lillian Hall, who has been spending the past two months with her grandmother, Mrs. Lee Hall, returned home to Rainier Monday of this week.

Mr. and Mrs. Bill Heath returned home from Spokane the latter part of last week.

Mrs. Merle Cline left Sunday to join her husband who is taking care of a fire station out from Scappoose.

Mr. and Mrs. Gus Hyde and family of Arizona are visiting the former's parents, Mr. and Mrs. D. R. Fowler.

Mrs. D. R. Fowler made a business trip to St. Helens Tuesday.

KEASEY

The W. J. Lindsley family drove to Hillsboro Sunday to attend a family reunion. They have one there every year.

The S. P. and S. bridge crew is in Keasey this week doing a lot of work in and near Keasey.

Mrs. Mendenhall and Mrs. Devaney made a trip up near the O. A. camp Friday returning with five gallons of berries each.

C. O. Evers and O. H. Devaney returned from Westport Sunday.

Mr. Gilan has a man from Vernonia sawing wood on his place, taking wood for clearing the ground.

**Miss Hilts Entertains
For Mrs. Neil**

Miss Charlotte Hilts entertained Thursday afternoon, July 9 in her Portland home for Mrs. Alta Neil. When refreshments were served each guest found an announcement of Mrs. Neil's engagement to Victor Bergerson of Vernonia. The guests were much surprised as they had not heard of a previous announcement made last week.

Those present were Misses Ruth Taylor, Florence Santee, Marie Kirkpatrick, Lila Meyers, Virginia Northrup, Mrs. Edwin Condit, Mrs. Lulah E. Fullerton, Mrs. M. A. Handley, Mrs. Alta Neil and the hostess.

Mrs. Neil is a graduate of the Oregon Normal school. She has taught in the Vernonia school for the past six years. Mr. Bergerson is a prominent farmer in the Kist district.

**D. R. Fowler Celebrates
77th Birthday**

RIVERVIEW—(Special.)— D. R. Fowler celebrated his 77th birthday Sunday at his home here. Mr. Fowler came to Oregon in 1883 from Kansas and settled near Trenholm, where he spent the best part of his life fighting stumps and brush and raised a big family. After his children all became grown and decided to leave the ranch Mr. Fowler and wife were unable to take care of it, so moved to Riverview six years ago, where they have resided since. They raised eight children.

Those present at the party were Mr. and Mrs. Gus Hyde and children, Alice, Orville, Ruth, Melva, Roy, Rondy, Lucile and Kenneth, all of Arizona, Mr. and

Mrs. E. D. Johnston and daughters Andra, Wilma and Thelma, Mr. and Mrs. Jack McAlister and sons Melvin and Jack, all of St. Helens, Mr. and Mrs. Clifford Fowler and sons Harold and Delbert, and Mr. and Mrs. Clarence Fowler and Kenneth of Vernonia.

A delicious luncheon was served and in the center of the table was a birthday cake, beautifully trimmed.

Mr. Fowler received many useful gifts.

WHEAT HOLDINGS REDUCED

According to a recent statement the federal farm board now expects to dispose of 35,000,000 bushels of stabilization wheat set for sale abroad not later than July. Total sales to date amount to about 20,000,000 bushels.

Whether additional offerings will be made grain corporation holdings is reported under consideration by the board.

RAISES TARIFF ON WHEAT

British India responds to the call for tariff protection in the Orient and exacts a duty of 73 cents per 112 pounds on imported wheat and flour. This new duty is expected to stop wheat imports into India, which amounted to 190,300 tons during 11 months of last year.

EQUALIZATION

Eastern Oregon range sheep raisers formerly placed their twin lamb ewes all in one band. They have now found it better to distribute these ewes among several bands of single lamb mothers as the twins are good "rustlers" and often supplement their own parent's milk from other sources if given the chance.

TEXTILE BATTLE RAGES

In 1919 the United States used only 9,322,500 pounds of rayon in her manufactories. In 1929, ten years later, she used 132,899,000 pounds of this same fabric. During this same period the use of raw silk increased in this country until in 1929 it reached 98,040,533 pounds. The price of

**Square Deal

rayon during this period declined from \$4.71 to \$1.24 a pound and the price of silk from \$9.95 to \$4.83 a pound. With the drop in prices the volume of consumption increased persistently as shown above, while the use of both wool and cotton declined.

But the tide of this textile battle appears checked temporarily at least. Last year for the first time the use of rayon declined. European manufacturers have perfected a process whereby they are producing wool fabrics of so light weight that they are taking the place of rayon and silk for articles of evening dress.

Ladino clover is evidently growing in popularity. Six years ago it was practically unknown here but the Oregon acreage is now over 6000.

EGG CLEANLINESS PAYS

A standard egg with a dirty shell is not equal in quality after it has been cleaned to the standard egg that has never been dirty. In the process of cleaning the shell is damaged and by its evaporation or shrinkage is henceforth very rapid as is also deterioration. This condition affects, of course, the market value.

The Dalles—County Agent W.

Wray Lawrence reports that the recent heavy rains have caused considerable germination of wild morning glory seeds on plots treated with chemical weed killers last fall, and advises that these plots be cultivated before the roots get established again.

ELK HERDS INCREASE

Big game hunters shot 4,352 elk in the national forests last year, yet under game management by the U. S. Forest Service and protection by State laws the herds in these forests increased from 82,672 to 88,214 head.

CORN

A total of over 5000 cars of corn are now shipped into the northwest annually. These cars hold approximately 40 tons each or a total of 200,000 tons valued at about \$8,000,000. The largest portion of this supply is from the corn belt of the midwest. Portland received 1374 cars last year.

In addition to the supply received from the midwestern states, Argentina averages about 500 cars a year to the northwestern markets.

The increase of corn acreage in Oregon since 1920 has been from 70,000 to 100,000 acres— and still more room for corn.

If the Virgin Islands had water enough for irrigation many of the soils would be highly productive, a soil survey shows.
