ENCYCLOPEDIAS - Their Uses

An encyclopedia, contrary to the apparent belief of some misguided students, should be used for the purpose of reference work...

It has been the habit of numerous students to treat the encyclopedias as if they were toys and valueless but interesting books.

The persons guilty of this inexcusable act show their lack of intelligence and home-training.

Now, a bit of advice might be given, with the reception of a new encyclopedia.

The new encyclopedia should be used for reference work only and not for the amusement of those with "nothing else to do."

Using a colloquial expression "act your age." We maintain that much more good will be obtained from the encyclopedia...

WASTE BASKETS - Their Uses This editorial is for the benefit of those students who apparently do not know that wastebaskets exist...

not have enough ambition to toss it in the basket or do not care.

The decision is up to the students. Their influence alone can stop it.

Therefore, students, do your best to stem this unspeakable outrage. The school's respect and yours depends upon your attitude.
