BIRKENFELD GOSPEL PREACHING

Special meetings are being held at the Birkenfeld high school every evening from May 28 until June 11, at 7:30 o'clock. The speaker is Evangelist P. J. Van Bruggen for Portland, assisted by Lyle Peterson, pianist and singer. These meetings are sponsored by the Young Peoples' society of Birkenfeld, and draw people from a great surrounding territory, including Clatskanie, Rainier, Vernonia, Mist, Jewell, etc. A choir of 25 voices sings and last Sunday an all day meeting was held in the gymnasium with more than 200 persons in attendance.

Everyone is cordially invited to attend these meetings. The closing night will be Sunday, June 11.

Bible Teacher Coming

On Thursday, June 15, Rev. Jack Mitchell, teacher of the Portland Union Bible classes, is coming to Birkenfeld at 7:30 p. m. to teach a Bible class. All Bible students are cordially invited to attend. Rev. Mitchell is known over the entire northwest as a Bible teacher, and his voice is heard by many who tune in on the radio, in the Fireside Bible talks, every Monday night and Thursday night over KALE, and every Friday night over KEX at 8:30 o'clock.

The committee considers it a great privilege to have this widely known Bible teacher come to Birkenfeld in person, and we invite every Bible student and Bible lover in the neighborhood to attend. Bring your Bible, notebooks and pencil.

Mrs. G. E. Bellingham, Chairman.

Business on the Up-Grade

Business is on the up-grade. This is not prophecy, but fact. Improvement has been registered in various basic industries—steel, copper, hogs, wheat, corn, department store sales, etc. Recently the New York Times index of industrial activity advanced for the seventh consecutive week to the highest point in 17 months.

A good sign is the estimate for the U. S. winter wheat crop—337,485,000 bushels. This is 40 per cent smaller than the 1921-30 average, the smallest since 1904. It will be 45,000,000 bushels short of the United States consumption. Prices jumped as soon as the official estimate was made public; the farmer smiled.

Interesting fact—it is not unusual for short wheat crops and resulting higher prices, to signify the breaking of depressions.

The trade picture is thus definitely optimistic. Low of depression was touched in June-July of last year. Since then the three general barometers—index of business activity, index of commodity prices, stock prices—
