home with comparatively little delay.

Truck Has Trouble

The Portland-Vernonia truck, driven by W. A. Davis, proprietor, became stalled on Timber hill near the summit Wednesday evening. M. F. Welter of Timber came to the rescue taking off half the load in his truck. Mr. Davis managed to turn around, descended the hill and then came back up again, making the grade with the lighter load. He reached Vernonia at about 1:30 a. m.

Power Uninterrupted

Light and power service has been maintained without interruption, though there was some difficulty Wednesday night. One of the telephone lines to Forest Grove has been out, and there has been trouble with some of the rural lines.

Clark and Wilson worked up to Wednesday night. The men reported yesterday morning, but the snow fall was too heavy, and there was only a little emergency work performed. Conacher, at Glenwood, has been down since Friday. Snow in that locality is particularly heavy, 30 inches being reported by F. D. Macpherson, who operates the speeder. Mr. Macpherson remained until Tuesday.

Snow in Vernonia has been in some places nine inches, in others 10 and 11 inches.

Is Unable to Reach School

Ross Duncan was unable to get through to Keasey yesterday, in taking Mrs. Duncan to her school, and had to turn back.

Keasey students did not come in on the high school bus because of possibility of not being able to get back in the afternoon.

window. Saw one displayed there two weeks ago Sunday. He was killed by Bert Tisdale. I believe he got him on Weed creek near Arcadia park. More power to you, Bert. Hope you get several more.

I see by the daily paper that the governor has asked the legislature to pool all funds of the state into one general fund and the different departments to be appropriated so much each year.

I hardly think this is a fair shake to the sportsmen of the state as the state game commission has always been a self-sustaining commission and has never asked for any appropriation.

tion other than that gained from the sale of licenses and permits to sportsmen.

If the other departments of the state had had to get along on as little money and yet accomplish as much the game commission the state would be in much better financial condition today. Don't you like to catch a trout or steelhead or kill a deer now and then? So do I. So let us do everything we can to keep the game commission and we sportsmen's money out of politics.

TREASURER MAKES LIBRARY REPORT AT BOARD MEETING

(Continued from Page 1)

the librarian's salary is paid by the city, and most of the library's books and supplies are purchased with city warrants issued on a small fund set aside for the library each year.

A summary of the treasurer's report follows:

Bal. on hand Jan. 1, 1934	\$10.80
Receipts, from fines and rentals	53.85
Old paper sale	9.26
Donations	22.60
Total	\$96.51

Librarian's salary	\$54.00
Supplies, postage, books, etc.	23.06
Total	\$77.06
Balance of cash Dec. 31	\$19.45

Election of officers was postponed until new appointments are made by Mayor Owens.

Mary Ann Childs was appointed as assistant to the librarian, Edna Owens, to take the place of Mildred Cason, resigned.

The librarian's monthly report announced the donation of 13 volumes by friends of the library.

A report from Mrs. Lois Clark, in charge of mending books, stated that considerably over 400 books had been mended, which number did not include those which had needed only slight attention.

J. F. ROSE IN VERNONIA

Mr. and Mrs. J. F. Rose and family have been in Vernonia during the week. Mr. Rose, who did not get the market position in Portland promised him before moving from here, is selling memberships in the Pacific Coast Automobile association. While in Vernonia he and his family are staying at the Henderson apartments.

HOUSE MEMBER FATHER OF GIRL

(Washington, D. C., Post) THE WHITE HOUSE is a proud father's goal for the first Congressional baby, who was born Monday at Columbia Hospital to Representative and Mrs. James W. Mott of Oregon.

Although the baby is a girl, Representative Mott does not feel that will handicap her in becoming President. He predicts that in 1969 - when she is 35 years old - she will become the first woman president of the United States.

"Not only does she belong in an age when women generally are attaining high places in government," said Representative Mott, "but she began life with a display of good judgment and initiative. See how she arrived in time for roll call Monday."

Told of the incident at her press conference later in the day, the First Lady laughed.

"It is not improbable with the strides that women are making nowadays," Mrs. Roosevelt said, "that she may qualify for

MANY BANKS LONG LIVED

In the United States—
168 Banks over 100 years old.
2,472 Banks over 50 years old.
10,391 Banks over 25 years old.

There are in the United States 168 banks that have been in continuous existence for more than one hundred years. There are 2,472 banks over fifty years old, while 64% of all the banks in this country, or 10,391, are twenty-five years old or older.

In other words, practically two-thirds of the banks in this country have come through several successive periods of depression and panic, including 1907, 1914, 1920 and 1929-33.

The oldest bank in the country is in Boston, having been chartered February 17, 1784.

In the 64% of banks that are twenty-five years old or older is lodged a major portion of the banking resources of the nation. In commenting recently upon the stability of a great majority of the banks in the United States, Dr. Harold Stonier, Educational Director of the American Bankers Association, said: "The fact that we have so many banks that have been in existence a long period of years is an eloquent tribute to the genius of American managerial ability, for no other country has experienced such wild gambling eras and resultant periods of business stagnation as those through which our country has passed at frequent intervals during the past century."

the Presidency by the time she reaches maturity."

Mrs. Mott, asked of her ambitions for her daughter, expressed the hope she would grow into a "normal American girl".

This is the Motts' third daughter.
