Eddie Cantor Wonders What Fast Automobile Drivers Think About

pointed my way than with a drunken or reckless driver. At least you've got a chance to reason with a guy holding a gun.

"If every person drove his car as if his horn were out of order, there could never be an accident. And how much safer every individual would be if people drove with the thought that the other fellow in the other car was going to do something wrong.

Curbing Reckless Drivers

"Early in the spring, one of my radio fans sent me a little poem. If I had my way it would be handed to every applicant for a driver's license. Here it is:

Here lies the body of William Jay,
Who died maintaining his right of way.
He was right as he sped along,
But he's just as dead
As if he'd been wrong.

"Too many automobile drivers today, stop, look and listen only because there's something wrong with their engines. They should have more faith in signs. One motor vehicle authority I know recently submitted a unique and promising plan for curbing reckless driving. He would compel speedsters to sit in their automobiles, parked in a public square, with loud radio speakers broadcasting: 'Here are reckless drivers who have no respect for their own lives or anyone else's'.

"Make no mistake, it would bring desirable results. But the tragedies caused by reckless drivers have given me a thought that provides a more drastic penalty. Pass it on to the lawmakers in your community: Every person who has been given three tickets for speeding—making him a third offender—should not only have his license revoked, but he should not be permitted to drive a car again for the rest of his natural life.

"Wouldn't you feel safer?"

IDEAL TONIC FOR SKINNY, CRANKY CHILDREN

Marvelous New Tonic Revitalizes the Blood and Energizes "Run-Down" Systems

PURSANG

If your children are skinny and underweight, cranky and whiny, maybe it is because they are anemic and run down. Growing up takes terrific energy. The wear and tear of the years weakens resistance. The blood gets thin. It no longer performs its proper functions. Toxins in it pour into the system. Is it any wonder that nine people out of ten feel "half sick" all the time?

If your children look run down or you yourself feel below par, why not try the Pursang treatment for a while? Pursang every day before or after meals.
