GALES CREEK ROAD IN NEED OF ATTENTION

With prospects of activity on the Wilson river road and Wolf creek to which the Gales creek road will be tributary for some time to come, it becomes necessary to point to the condition of the latter road. The heavy travel to which Gales creek road has been subjected, and which promises to continue to even a greater extent, has proven that attention will have to be given to this road if it is to be kept in satisfactory condition for travel.

Contrary to the general impression, Gales Creek road is not a secondary highway. It is a county road and therefore is the responsibility of the county court rather than the state highway commission.

The county court is aware of the present condition of the road and is trying to anticipate the situation by inclusion of the Gales Creek road in its plans for the use of federal farm-to-market funds. If this type of assistance in maintenance of the road is too long delayed local responsibility for the road will have to be assumed and it is one of the most important arteries leading into Forest Grove.
