

LAPPS ORIGINATED IN ASIA
The Lapps are generally conceded to be a mongoloid people who originated in northeastern Asia, not far from Lake Baikal. They probably followed the edge of the inland ice as it shrank northward, at the end of the latest Ice age, and wandered westward across the steppes of Asia to the Arctic regions of northern Europe. At one time they spread southward down the Scandinavian peninsula; but, persecuted by stronger tribes, they retreated to the frozen tundras of the Arctic, where most of them have remained ever since.

Fashion Notes

All-round knife-pleated skirts are shown by leading designers. Grand for bedtime loafing and sleeping are suede crepe pajamas with tuck-in blouses. A tailored velveteen blouse in your favorite shade is smart for campus or street wear. Matelasse satin is a lovely material used in rather simple tailored dinner dresses with jackets. The college girl will be delighted with the new finely ribbed zephyr sweater-blouse in smart colors. Some of the new short coats are loosely belted with upstanding collar in the new Italian feeling. Broad shoulders, narrow hips and flaring hems comprise the lines of new dinner and evening dresses. Marcel Rochas includes among new materials presented at his Paris opening a very thick duvetyne, almost like teddy-bear fabric. The Italian color theme will be concentrated on for fall—bronze green, pale yellow green, purplish blue and deep muted red, says Vogue's Paris cable.

**ECONOMY PLUS CHIC
IN TAILORED FROCK**

PATTERN 9605

A fashionable turn-out will witness so important a merger as this for Economy and Chic are names of nation-wide importance. Allied in this softest of woolen frocks, with monotone rabbit's hair stripe is a crisp squarish collar of pique, which follows the horizontal line of combined yoke and sleeves. You, who make and wear it, will rejoice in the easy-to-make features, wearable qualities, and surprising economy of this all-occasion frock. Inverted skirt pleats back and front allow for action. Also smart in synthetic crepe. Pattern 9605 may be ordered only in sizes 12, 14, 16, 18, 20, 30, 32, 34

36, 38 and 40. Size 16 requires 2 1/2 yards 54 inch fabric and 3/4 yard 36 inch contrasting. Complete diagrammed sew chart included. Off to School in Wash Silk Frocks

By CHERIE NICHOLAS

"WHAT is the matter, dear, don't you like your new dress?"—questioned an anxious and puzzled mother as she noted a lack of enthusiasm on the part of little daughter, who stood before her trying on a frock of a none too attractive utilitarian weave. While the sensitive little fingers smoothed the material, came the answer reluctantly and hesitatingly—"Ye-es, mother dear, only I like the nice silky kind better." This is a true story and it has a moral—a word to the wise is sufficient.

And why not wear silk to school? Of course it must be the right kind of silk that bespeaks the fitness of things. The sort we have in mind is the pure silk fabrics that are absolutely practical in that they wash and iron endlessly, clean constantly and do not stretch or sag.

A selection of charming colors is offered in the washable silk crepes. Little folks will love the bright rust shades, the rich hunter greens and the raspberry tone, Robin Hood red, smart browns and the new Tahiti green, also blues, both navy and light, and for party wear there is a dainty tea-rose that is most attractive. The new spun silks (they launder beautifully) in plaids and checks are ideal for cunning play dresses that button up the back and are trimmed with Peter Pan collars. By the way Scotch Highland plaids made up with kilt-pleated skirts are outstanding this season.

When it comes to Sunday bests and party frocks, they will prove an incentive to good behavior to any little girl if made up of lovely tafetas, silk chiffons (some with drawn threads forming a checked pattern) especially if a perky new hat and silk bag complete the ensemble.

Pleats, shirring and smocking in mother's and grown-up sister's mode are likewise very much in evidence in the styling of children's apparel. Many of the juvenile frocks have stitched pleats released halfway down the skirt. The little girl to the left in the picture is off to school in a dress of pure silk crepe that is going to prove an economy and energy-saving measure for

mother, in that every time it comes from a tubbing it will be looking like new. It has the released pleats mentioned above. In this instance the pleats begin at the shoulder and are released halfway down the skirt. A white collar adds a demure note.

Little Missy with her smart new school bag is poised and proud in a prettily fashioned frock of deep rose colored silk crepe. The skirt is box-pleated. The pleating vogue, so pronounced this season, is further emphasized in the tiny accordion-pleated frills that edge the round collar effect and the fastening down the front. Eyelet-embroidered white crepe forms a double collar line.

A society bud in the making stands to the right in the picture. She is "all dressed up" for a Sunday afternoon stroll in a silk crepe gown in the fashionable Tahiti green. The piping and sprightly bows are in wood brown. The full sleeves are shirred from the neckline over the shoulders, a very significant gesture in dressmaker details.

Yes, indeed, there is undoubtedly that something of magic in a neat, pretty silk frock, the sort that launders (mothers appreciate the "launder" assurance) that can put glamor even into the arduous task of learning reading, writing, arithmetic, geography—practicing piano, too!

The Word "Bachelor"
The word "Bachelor" is from old French bachelier, which is from a late Latin word baccalaris. This may be merely a translation of the French word or it may be allied to baccalaris, a late Latin adjective applied to farm laborers, the history of which is very doubtful.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

Quick, Complete Pleasant ELIMINATION

Let's be frank. There's only one way for your body to rid itself of the waste matters that cause acidity, gas, headaches, bloated feelings and a dozen other discomforts—your intestines must function.

To make them move quickly, pleasantly, completely, without griping. Thousands of physicians recommend Milnesia Wafers. (Dentists recommend Milnesia wafers as an efficient remedy for mouth acidity).

These mint flavored candy-like wafers are pure milk of magnesia. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly in accordance with the directions on the bottle or tin, then swallowed, they correct acidity, bad breath, flatulence, at their source and at the same time enable quick, complete, pleasant elimination.

Milnesia Wafers come in bottles of 20 and 48 wafers, at 35c and 60c respectively, or in convenient tins containing 12 at 20c. Each wafer is approximately an adult dose of milk of magnesia. All good drug stores carry them. Start using these delicious, effective wafers today.

Professional samples sent free to registered physicians or dentists if request is made on professional letter head.
