To the Editor:

I note in last week's Eagle that my name appears as one among those who expressed themselves as opposed to the \$1125 allotment for the cemetery fund, instead of the \$200 as originally planned. On account of this I wish through these columns to make it clear why I expressed any opinion.

I am not opposed to improving the cemetery, but the city is loaded pretty heavy now.

It is necessary for Vernonia to have a budget, none as yet has been accepted by the voters and if it is raised too high the budget may be lost altogether.

The millage in 1935 was twice as high as in any other city in the county. The tax delinquency is very serious to property owners as well as City.

Mrs. F. E. Malmsten

BANKERS' ASSOCIATION STIMULATES ADVERTISING

The American Bankers Association's Advertising Department reports rapid progress of the use by banks of the informative bank newspaper advertising prepared by it for members to assist them in rebuilding public confidence and good will in their communities.

The central theme of this advertising service deals with the "essential line of economic and social service that all sound banking inherently renders the depositor and the public," the report says, showing that "it is not banking laws which make banking useful and safe, but that it is honesty and skill in management under private initiative."

The Advertising Department is supplying about a thousand members of the association with newspaper and other advertising material. The newspaper material totals about 50,000 advertisements annually. The growth of the work of the department is shown by the following figures: On September 1, 1934, the number of banks being served regularly each month was 623. The total number on April 1, 1935, was 924, an increase of 301 regular subscribers, or 49 per cent.

WAR ON BANK BANDITS

National Bankers Association Pressing Active Measures to Protect Members—Losses Cut

Imprisonment or death of many desperate bank criminals the past year has brought no appreciable reduction in attacks on banks. James E. Baum, in charge of the American Bankers Association Protective Department, has reported to his organization.

In the six months ended February 28, 1935, he says, banks were targets for 169 daylight holdups and 40 night burglaries. He added that although banks that are not members number only about half those enrolled in the association, they suffered a far greater rate of attack, namely, 51 per cent of all the bank robberies.

Losses Show Decrease During the period under report, bank burglars and bandits exacted tribute amounting to \$943,551 compared with losses totaling \$1,257,000 a year ago, he said. This reduction in losses is attributed to the time-locking restrictions and other limitations in the exposure of surplus cash imposed last year by underwriters and bank supervisory authorities.

A YOUNG PIONEER

When several hundred families were sent to Alaska from the Middle West to settle the Matanuska Valley, the Red Cross sent a nurse, Madeleine de Foras, to remain with them for a year to help protect their health. Among the first friends she made were the little pioneer, Arthur Hack, 4 years old, and "Prince," the pup who went with his young master to Alaska.

The sharp reduction in the material loss of money and securities resulting from bank robbery this year was "overshadowed by the killing of 2 bank employees, one bystander and 5 arresting officers," and since last August bank robbery also cost the lives of 15 criminals and caused physical injuries to 10 bank employees, 12 bystanders, 9 arresting officers and 8 bandits, a total of 62 casualties.

Investigations by the association's agents resulted in the arrest of 36 forgers, 42 bandits and one burglar, or 79 of the 141 bank criminals reported as being apprehended during the year.
