What SHE TOLD WORN-OUT HUSBAND

She could have reproached him for his fits of temper—his "all in" complaints. But wisely she saw in his frequent colds, his "fagged out," "on edge" condition the very trouble she herself had whipped. Constipation! The very morning after taking **NR** (Nature's Remedy), as she advised, he felt like himself again—keenly alert, peppy, cheerful. **NR**—the safe, dependable, all-vegetable laxative and corrective—works gently, thoroughly, naturally. Designers in a Mood for Pleating

By CHERIE NICHOLAS

PLEATS, pleats and nothing but pleats, is the message of many of the smartest fashions this season. Turn where one will in the realm of costume design, there's an orgy of intriguing pleated effects "carrying on." So let's keep up with the mode while we talk about pleats, pleated and being pleated.

French designers, especially, are not leaving anything unpleated that could, should and must be pleated according to their idea of things. Their pleated mood pertains to daytime fashions as well as those of highest evening formality. The all-over pleated gown reflecting Grecian inspiration is a highlight in evening modes. Evening capes to go with these lovely creations are also completely pleated in waistline or longer lengths. In daytime fashions the all-over pleated dress has also been received with acclaim.

However, all-over pleating is only one phase of the subject, for the use of pleats is embracing every sort from the tiniest of sprightly pleated edgings which run hither and thither about hemlines and up and down, flanking each side of neat buttoned closings which sometimes extend from head to foot. Some designers there are who make a feature of pleated tiers and apron fronts and pleated sleeves.

The new fabrics are entering into the pleated conspiracy with a noble gesture. Most of them seem made just to be pleated—fairly invite one to pleat them. Take the all-silk black crepe which is so ultra smart for daytime dresses. It pleats to perfection. A statement that does not need a second telling after one glimpses the stunning gown in the center of the illustration. Pleated every inch of the way is this black silk crepe afternoon dress. The pleats are stitched down at the neck, shoulders and waist, giving a fitted well-groomed appearance to the frock. A green clasp at the throat and a suede belt in the same color provide bright contrast. This dress is the much talked-of Molyneux which is meeting with such outstanding success this season.

An effective treatment of wider pleats in a black silk crepe dress for the young girl, is pictured to the left. The pleats are stitched with tailored precision about the hipline and released half way down the skirt so as to slenderize at the same time that it provides a flared hemline. The bodice is a modified

shirtwaist with tiny metal buttons in front.

Speaking of the new materials adapting themselves so readily to the pleated mode, the new silk lame weaves, many of which are sheer and tissue-like in texture, enter into the scheme of things with infinite grace. If you are wanting a lovely gown for prom gayety, here it is at the right in the group pictured. Shirrings and pleats go fifty-fifty in the instance of this ultra chic and adorable evening dress made of silver silk lame. The shirred top is held by narrow double straps, and the décolletage is outlined by a tiny band of pleats. The pleated theme continues in the skirt, held well in place by the crispness of the silk lame. The only trimming is the metal and jeweled buckle of the belt.

Among the pleated triumphs in evening fashions are the perfectly charming airy-fairy floating visions of silk chiffon, most lovely, perhaps, in white but which set your heart throbbing at faster pace in any of the new jewel colors or pastel shades. Sometimes only the skirt is pleated, but when it is, it's done so artfully it flutters out like a fleeting cloud or a mist enveloping the figure.
