Miss Gavena Charlesworth, daughter of Mr. and Mrs. Ray C. Charlesworth, and Roy Mather were married at the home of the bride's parents in Toledo, Oregon, Sunday, December 22, at 2 o'clock in the presence of relatives and a few friends.

The service was read before a bower of ferns and yellow and white chrysanthemums by the Rev. R. A. Feenstra.

The bride wore a floor length gown of straw colored satin and carried a bridal bouquet of roses and hyacinths.

Proceeding the ceremony the bride's brother, Ray Charlesworth, Jr., played "The Flower Song" on his horn accompanied by a sister, Mrs. Gerald Anderson, who also played the wedding march.

Mrs. Mather and her parents are well known in Vernonia where they lived for a number of years. Mrs. Mather is a trained nurse and worked in the hospital at Toledo for the past three years. Mr. Mather has been employed in the mill for over a year.

Pasteurized MILK

Is not cooked or Boiled Milk

Pasteurized milk is natural cow's milk, subjected for a period of not less than 30 minutes, to a temperature of not less than 140 degrees, nor more than 145 degrees Fahrenheit, and immediately cooled to a temperature of 50 degrees or lower, and kept at this low temperature until delivered.

Boiling temperature is 212 degrees — a heat which changes the taste and vitamin content of milk to a slight extent.

Holding the milk at the temperature of between 140 and 145 degrees for 30 minutes destroys the germs causing diphtheria, typhoid, dysentery, septic sore throat and tuberculosis, without altering the taste or food value of the milk.
